

# THE MOST BEAUTIFUL PLACE OF RUSSIA - THE CRIMEA

# CRIMEA

---

Crimea a real pearl of the black sea coast, its nature is so beautiful and picturesque, the Peninsula is considered to be one of the most beautiful places on the Planet.

# THE VALLEY OF GHOSTS

This mysterious place on the rocky slope of mount Demerji will not leave anyone indifferent. Huge blocks of stone, created by nature, its shapes remind of people and different animals. There is also the ancient legend of the nomads, trying to conquer the Crimean land, but for disrespect to the local mountain punished them, turning into stone statues. It is here that the prisoner of the Caucasus of the well-known film singing his song, dancing on one of the stones.

# SWALLOW'S NEST

On a cliff stands proudly  
reminiscent of a medieval  
castle,  
once built by the retired  
General  
as a country house. This  
hanging above the waves the  
castle depicted in the paintings  
of many artists-marine painters  
and is a symbol of the southern  
coast of the  
Peninsula. Currently,  
there are open exhibition halls,  
the exhibition that tells about  
the history of the region.

# AI-PETRI

Not the high, but very picturesque mountain, towering over Yalta majestic cliffs. The top of AI-Petri is a part of the mountain massif of the same name. The cable car whisks tourists to the top of the mountain, but down is better at the incredibly beautiful trail Taraktash leading straight to Yalta.

# WATERFALL JUR-JUR

**THIS IS THE MOST POWERFUL CRIMEAN WATERFALL IS LOCATED IN THE MOST BEAUTIFUL PLACE OF CRIMEA RESERVE. WITH A HEIGHT OF 15 METERS FALLING STREAMS OF WATER, WHICH IS NOT REDUCED EVEN IN A DROUGHT, SO HE GOT THE NAME, WHICH TRANSLATES AS "ALWAYS BUBBLING". SWIMMING IN IT IS DANGEROUS, BECAUSE WITH THE WATER FALLING STONES, THE BETTER TO ENJOY THE BEAUTY OF ITS ENVIRONMENT.**

# CAPE CHAMELEON

---

Near Cokable you can see a real miracle — ness, radically changing its color depending on the weather and time of day. This natural phenomenon can be observed all year round, and it is due to the fact that the Cape is composed of shales, which reflect light. Unfortunately, the clay components are very susceptible to the inclement weather, over time the Cape is getting worse. It is noteworthy also that he shares a two-Bay, in which water of different colors, from the height of the sight is just amazing!
