

МБОУ «Удачненская школа»

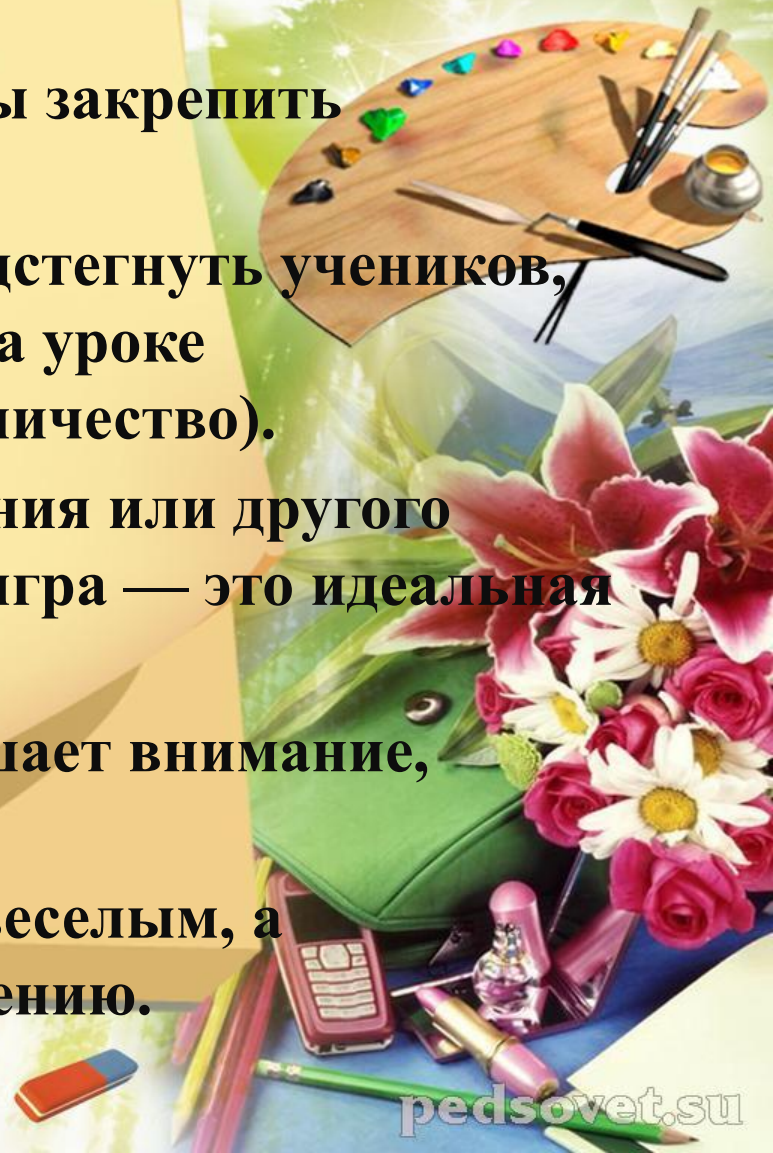

Тема самообразования
**«Игровые технологии
на уроках английского
языка»**

Подготовила учитель английского языка
Дулупова Елена Владимировна

Игры — это активный способ достичь многих образовательных целей.

- Можно использовать игры, чтобы закрепить пройденный материал.
- Игра — превосходный способ подстегнуть учеников, заставить их активно работать на уроке (или поблагодарить их за сотрудничество).
- После трудного устного упражнения или другого утомительного занятия веселая игра — это идеальная возможность расслабиться.
- Быстрая спонтанная игра повышает внимание, оживляет, улучшает восприятие.
- Игры делают процесс обучения веселым, а это усиливает мотивацию к обучению.

Amazing creatures

Red Panda

Red Panda
The red panda is a small, bear-like mammal. It is found in the Himalayas. It has a thick, reddish-brown coat. It is a very shy animal and is mostly active at night. It eats bamboo leaves and shoots.

Asian Elephant

Asian Elephant
The Asian elephant is a large mammal. It is found in South and Southeast Asia. It has a thick, wrinkled skin. It is a very intelligent animal and is known for its memory. It eats a variety of plants and fruits.

Asian Tiger

Asian Tiger
The Asian tiger is a large cat. It is found in South and Southeast Asia. It has a thick, orange and black striped coat. It is a very powerful animal and is known for its strength. It eats a variety of animals, including deer and wild boar.

Таким образом, учебная **игра** — это такой вид деятельности учащихся на уроке, в процессе которого в игровой форме решаются учебные задачи.

Игра вызывает интерес и активность детей и дает им возможность проявить себя в увлекательной для них деятельности, способствует более быстрому и прочному запоминанию иноязычных слов и предложений.
