

Mysterious places of the world

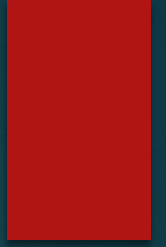

WHAT IS MYSTERY ?

- A mystery may refer to something that cannot be explained or comprehended. Any action, affair, or event so obscure or concealed as to arouse suspense, curiosity, or fear is a mystery.
- A mystery is mostly in investigation activities whereby a detective has to solve a puzzle so as to find a solution of a crime and crack the case .

THE TRIANGLE OF DEATH

Bermuda triangle

Bermuda triangle

- *The bermuda triangle also called the Devil's Triangle, is an imaginary area that can be roughly outlined on a map by connecting Miami, Florida; San Juan, Puerto Rico; and the Bahamas, an island chain off the coast of the United States. Within that triangular area of the Atlantic Ocean have occurred a number of unexplained disappearances of boats and planes. Additionally, readings on directional devices do not operate normally inside the triangle.*
- *Researchers attempt to determine what has caused hundreds of planes to mysteriously disappear in what is known as the Bermuda Triangle.*

Mysterious disappearances, unexplained loss of time and orientation, magnetic anomalies, unusual dense fog that swallows living creatures and people who go insane for unknown reasons.

These are some of the mysteries that surround the Black Bamboo Valley. It's an area where many strange and unexplained events take place.
