MATCH THE MEANING WITH THE WORD:

The scientific study of the natural relations of plants, animals, people.

The act of making air, water, land dangerously impure.

Too many people in one place.

The act of destroying, putting an end to the existence of something.

The act of throwing things away untidily.

Plants, animals, people.

Living things

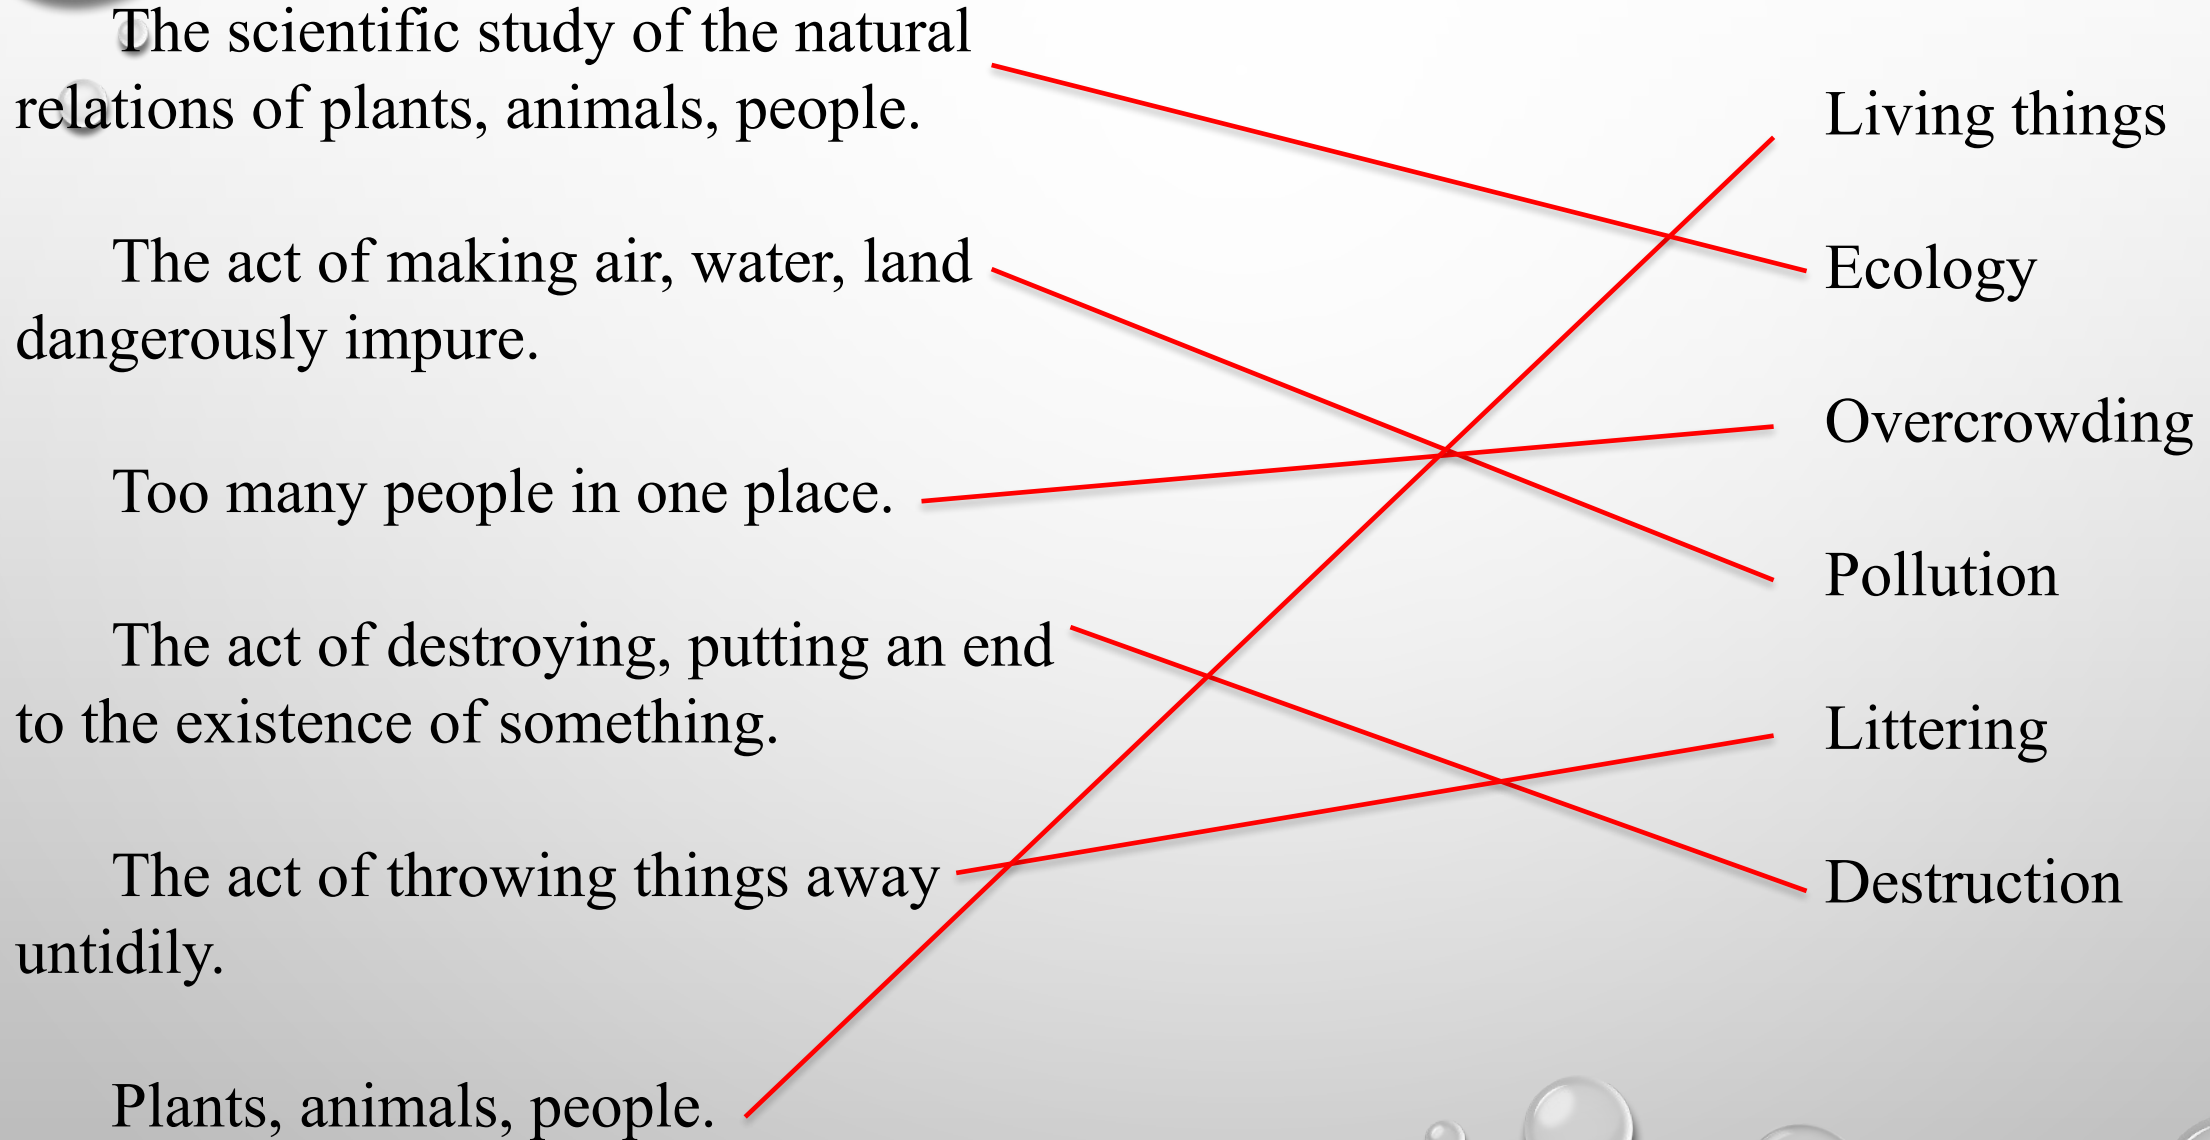

Ecology

Overcrowding

Pollution

Littering

Destruction

MATCH THE MEANING WITH THE WORD:

The natural home of a plant or animal.

Surroundings, circumstances and influences.

Something which can help in doing something, that can be turned to for support and help.

To use something up completely.

No longer in existence; having died out.

That which produces an effect or event.

Extinct

Resources

Cause

Habitat

Environment

Exhaust

FILL IN THE BLANK

- The Earth is our _____. We must take care of it. The importance of this task is _____ by the ecologists, scientists, who study the relations between living things and their _____. Each of us must do everything possible to _____ the land, air and water clean. Of course, people undertake some measures to _____ the environment, but this activity is complicated by the economic difficulties.

PROTECT, HOME, KEEP, POINTED OUT, ENVIRONMENT.

READ AND TRANSLATE THE SAYING

**WE DO NOT OWN THE EARTH, WE
HAVE BORROWED IT FROM THE
FUTURE GENERATION.**

«TAKE CARE OF...», «THINK ONLY ABOUT TODAY»,
«KEEP ... FOR YOUR CHILDREN».

About rhinos

The weight -
three-to five tons

A speed – 45 km per
hour

Rhinos live in
eastern and southern
Africa

Green-cheeked parrots

They live in Mexico and in the USA

They are really good at copying people's voices

Freshwater turtles

They live in North America

It is the largest freshwater
turtle

The image features a light gray background with several realistic water droplets of various sizes scattered in the corners. The droplets have highlights and shadows, giving them a three-dimensional appearance. The text is centered in a bold, black, serif font.

IF I WERE THE LEADER
OF MY COUNTRY, I
WOULD ...

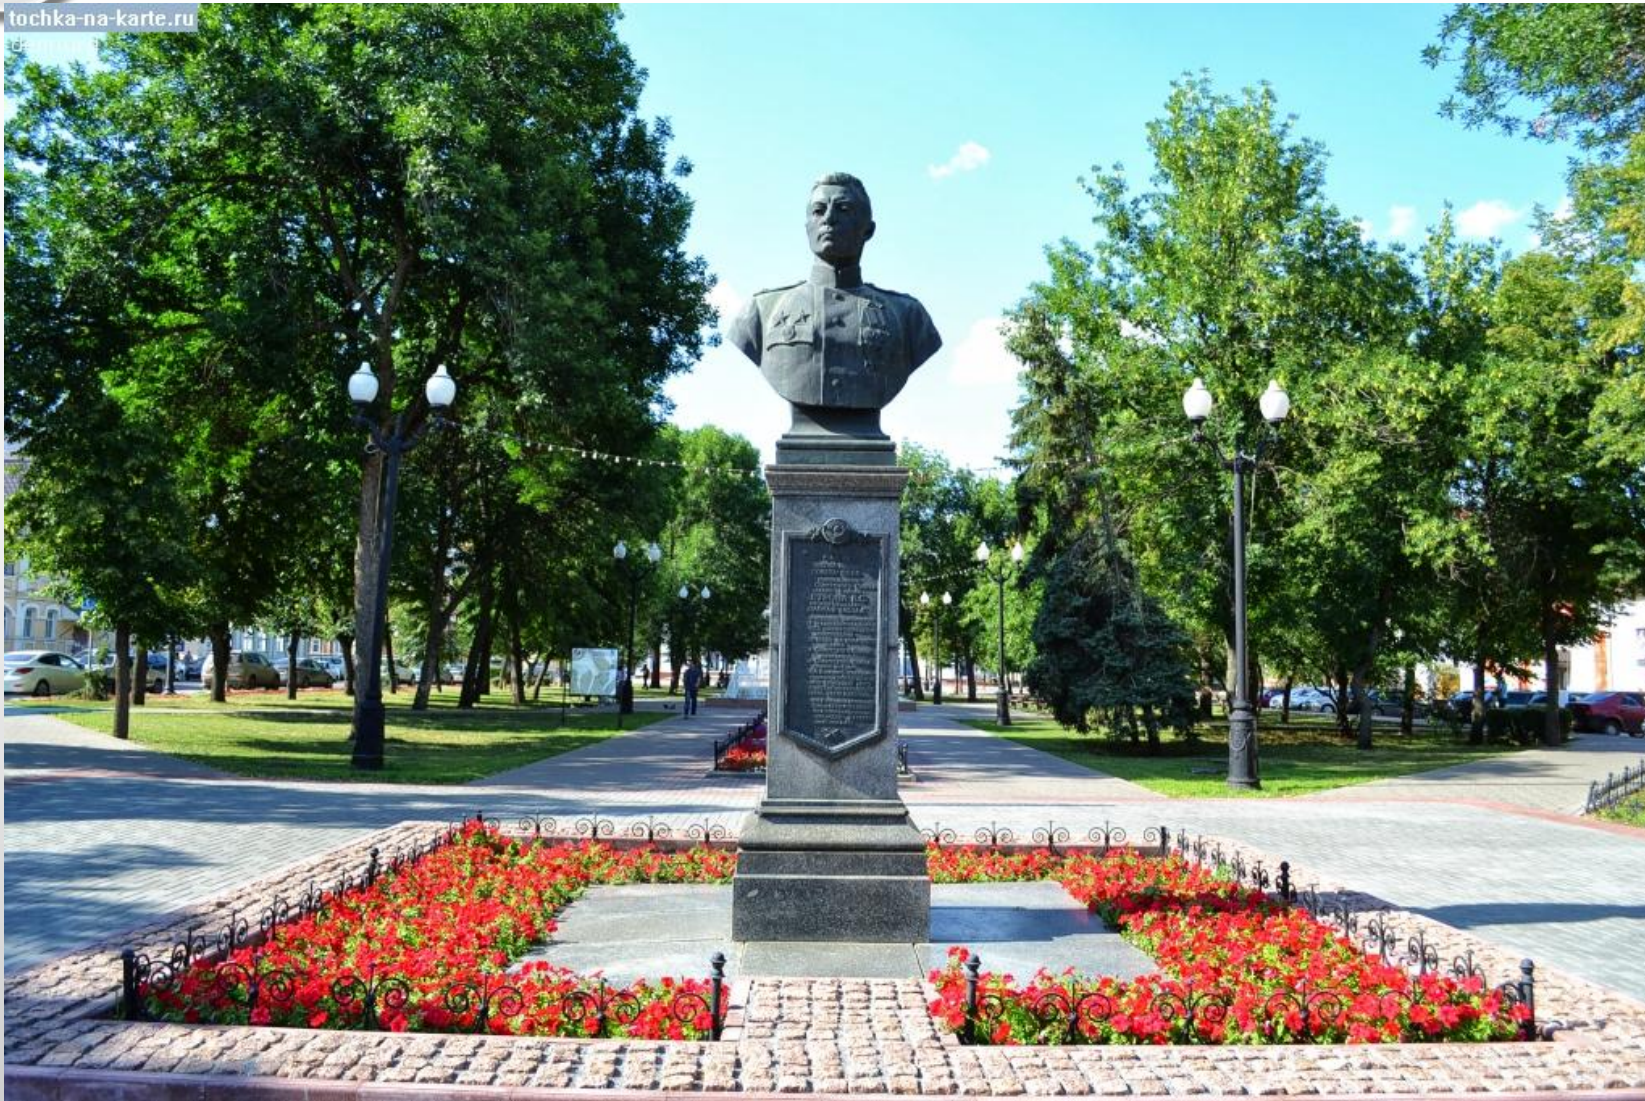

The 12th of June 2017 – the 381st anniversary of
Tambov.

The memorial complex of the Eternal Fire – a great monument to all those who defended our Motherland, living or dead.

Some factories produce liquid wastes that run into the Tsna.

The monuments are being slowly ruined by acid rains.

THE TAMBOV REGION'S ECOLOGICAL SITUATION

1. The main problem is the use of soil. Only 60% of agricultural land are used by farmers because of the disposing it by former collective and state farms.

2. The Second group of environmental problems is connected with water, its quality and quantity. Every year about 70 million cubic meters of wastes are dropped into the rivers and lakes by industrial enterprises.

RIVERS: THE VORONA, THE BITYUG AND THE SAVALL HAVE POOR QUALITY WATER DUE TO THE HARD WATER OF IRON SALTS. WE HAVE TO BUILD HUNDREDS OF PONDS AND RESERVOIRS TO PROVIDE SETTLEMENTS AND INDUSTRIAL ENTERPRISES WITH PURE WATER.

COMPLETE THE SENTENCES

- 1) Try not to buy pre-packaged food because...
- 2) Use less washing up liquid because...
- 3) Use public transport because...
- 4) Never light fires in forests because...
- 5) Do not drop rubbish in the streets because...
- 6) Do not throw plastic bottles into the sea because...

TEST

1. ENVIRONMENTAL PROTECTION IS AN ___ PROBLEM.

A) EASY, B) IMPORTANT, C) PLEASANT

2. FACTORIES POUR A LOT OF ___ INTO AIR AND WATER.

a) A SHORTAGE, B) WASTE, C) POLLUTION

3) WHAT CAUSED THE ___ OF WILDLIFE.

A) DESTRUCTION, B) POISON, C) POPULATION

4) MANY RIVERS AND LAKES ARE ___ .

A) POISONED, B) FILLED, C) USED

5) MANY SCIENTISTS TRY ___ ECOLOGICAL PROBLEMS.

A) TO SOLVE, B) TO KNOW, C) TO PROTECT

HOMEWORK

- ❖ **Why people worry environmental problems nowadays.**
- ❖ **What the most serious environmental problem in the place where you live is**
- ❖ **What young people can do to improve the ecological situation.**
