interesting places in Australia

Sydney Opera house

The construction of the Opera house began in 1973, it has become the most recognizable symbol of if not all of Australia, Sydney. The Opera House is much more in common with ships than with ordinary, earthly buildings, he stands on the water, and its shape resembles a frigate under sail than the usual concrete "box". The author structures the famous Danish architect Jorn Utzon.

Harbour Bridge

Harbour bridge was opened in 1932, March 19. Its construction was spent amount truly astronomical in those days - 20 million Australian dollars. The bridge connects the Central business part of the city with the North shore, crossing the Bay of Port Jackson. They can use any, because it is separated tracks for everyone: pedestrians, cyclists and cars.

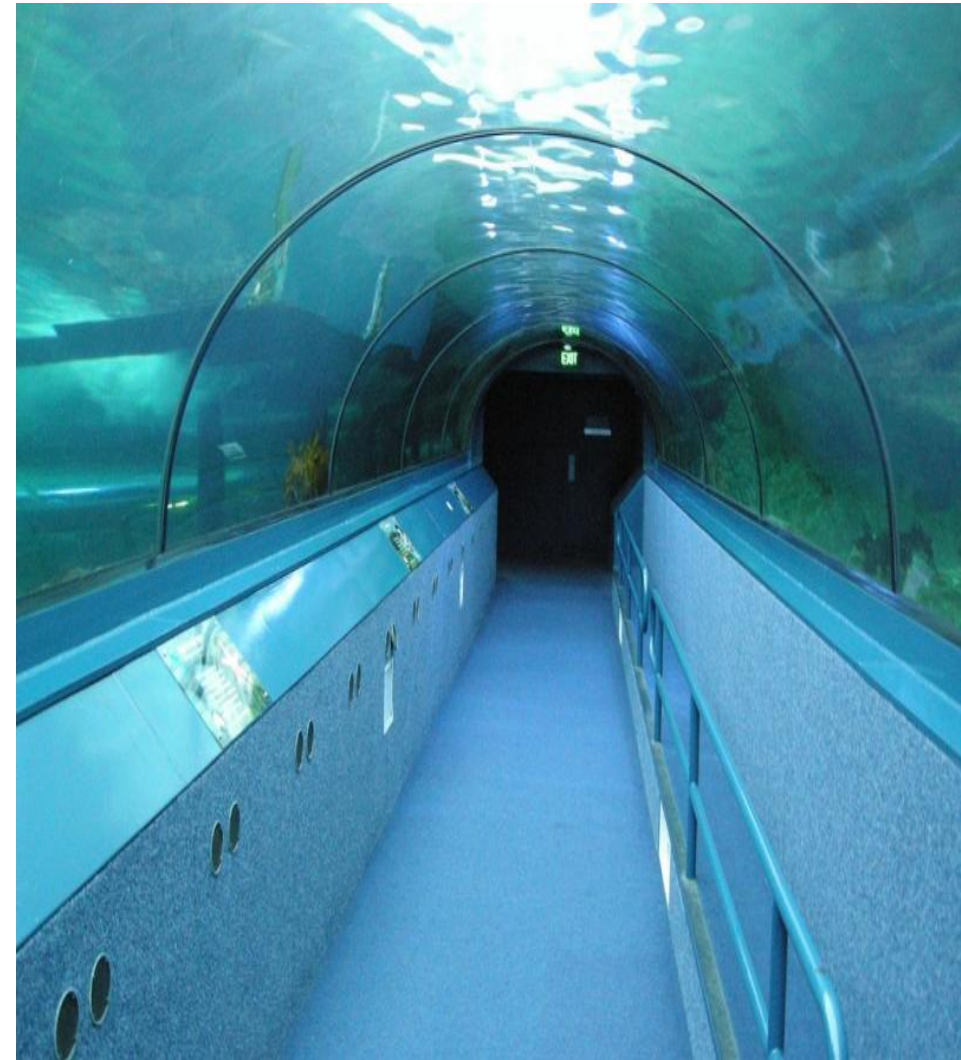

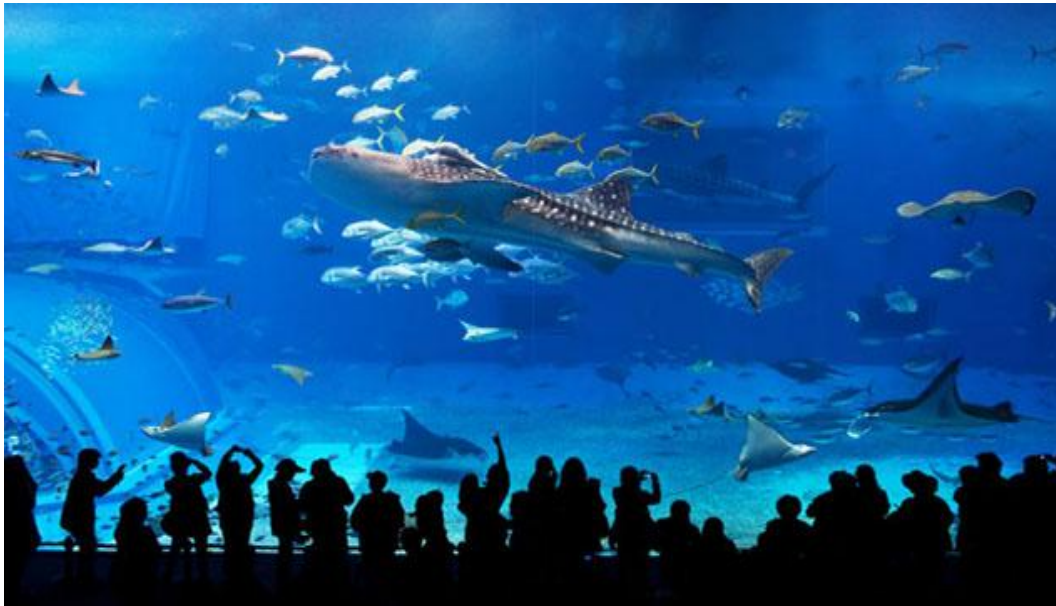

Sydney tower

Sydney tower is the tallest building in Sydney and the second highest in Australia. Its height is 305 meters and it is one of the most popular attractions of the city. The tower is open to the public, here is an observation platform with a restaurant. The tower has three high-speed elevators that lift on top of it for 40 seconds.

Sydney Aquarium

Go to the Sydney Aquarium it is imperative, as this aquarium is one of the largest in the world. He is incredibly diverse, and his visit is impossible not to get excited about: even a simple walk along the route of the aquarium without stopping at the exhibits up to 3.5 hours - so great that structure! The entrance to the aquarium is easy to find - it is located in the mouth of a huge shark.
