Wonders of nature

English (form 6)

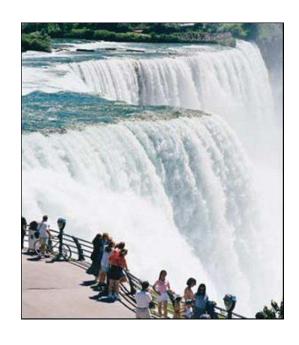

L.G. Koltun School Nº15, Usolie-Sibirskoye, 2014

Speaking about the wonders of nature

The wonder of nature	Where it is situated	What it is like	What it is famous for
1. Niagara Falls	on the border between canada and the USA	powerful waterfalls	the most powerful waterfalls in North America and the second most powerful in the world
2. The Curonion Split	The Russian Federation, Lithuania	a thin sand-dune split; a combination of forests, beach and desert	the home of the highest moving sand dunes in Europe; the place where millions of birds stop during their migrations

Speaking about the wonders of nature

3. The White Cliffs of Dover	England	cliffs up to 107 metres high; they are made of chalk	one of the symbols of England; the home to a great number of insects; the first sight of England that travellers can see when they cross the English Channel from France
3. The Great Barrier Reef	Australia	the largest collection of coral reefs in the world	full of unique plants and animals; there are corals of different shapes, sizes and colours

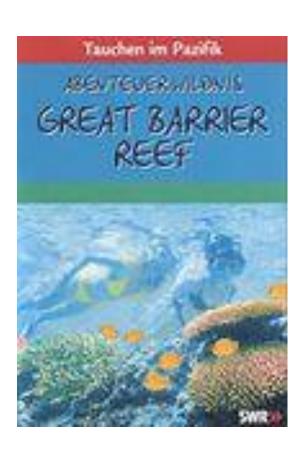

The White Cliffs of Dover are full of colourful flowers.

• A British wonder of nature.

• The Cliffs have become one of the official symbols of great Britain.
