

# **ECOLOGICAL PROBLEMS OF HUMANKIND**

# ENVIRONMENTAL PROBLEMS

# Questions to discuss:

- Do you worry about the environment?
- Why is an environmental problem a problem?
- What danger does your country pose to the global environment?
- Do you think our environment is beyond repair?
- Will the problems get worse or will they slowly disappear?

# Share your personal opinion

- Who is most responsible for creating environmental problems?
- What kind of environmental policies does your country have/need?
- Do you add to the environment's problems in your daily life?
- Is it possible for everyone to change their lifestyle to help the Earth?
- If the environment could speak, what would it tell us?

# A warning about the future of the world's natural World Heritage sites.

## Read the article and answer the questions:

- What can you do to help protect the sites?  
What do you think is your heritage?  
What should governments do to protect the sites?
- Why do people think profit is more important than protecting beauty spots?
- What would you do if you were UNESCO's director?
- What would it be like to live in a World Heritage site?
- What advice do you have for UNESCO?
- What will the environment be like in 100 years from now?
