

Schools in Russia

Russian Education

- 0 The Russian children usually start to go to school when they are seven years old.

The primary school

- o The Russian children visit the primary school for four years. They learn to count, to read and to write.

The secondary school

- o The secondary school starts from 5th grade. Our pupils start learning Biology, Geography, Chemistry, Physics and many other subjects.

The high school

- After 9th grade pupils have to decide to continue studying in high school. It lasts for two years. After that they can enter the university.

Uniforms

- o The Russian pupils wear uniforms to school.

Timetable

o We have our own school timetable for all week.
