Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 1.5 minutes to read it.

The highest mountain is located on Mars. The giant volcano Mount Olympus is the highest mountain in the solar system and in the known universe. At 14 miles and 388 miles across, it is almost three times the height of Mount Everest and so wide that its base would cover Arizona, or the whole of the area of the British Isles. The crater on the top is around 45 miles wide and over nearly 2 miles deep, easily big enough to swallow London.

We traditionally measure mountains by their height. If we measured them by their size, it would be meaningless to isolate one mountain in a range from the rest. That being so, Mount Everest would dwarf Olympus Mons. It is part of the gigantic range which is nearly 1,500 miles long.

Task 2. Study the advertisement.

You are considering visiting the city and now you are calling to find out more information. In 1.5 minutes you are to ask five direct questions to find out the following:

- 1) location of the agency
- 2) services they provide
- 3) if they work at weekends
- 4) competitive advantages
- 5) if they provide any guarantees

You have 20 seconds to ask each question.

- In the photo number one we can see the people in the office. It seems like they are colleagues. All of them are smiling, they might have had a big work done. In the picture number two we see a man, who is wearing a suit. He looks extremely tired. He laid his head down on his laptop.
- Both of the pictures are related with work. In both of them there are some people who have probably finished a big work. But there is a huge difference too. Firstly, in the emotional way. People in the first picture look very happy and successful, while a man on the right looks very depressed.
- As for me, I'd prefer working in a collective which is shown in a photograph number one, because they look very friendly and I suppose they do appreciate each other. As for me it is very important to work in a good collective. I've never wanted to work as a freelancer, alone, because I need other people around me, who can notice what a good worker I am.
