

Presentation on:
«CAREER STEPS»

The choice of future profession is a very important step in the life of every person.

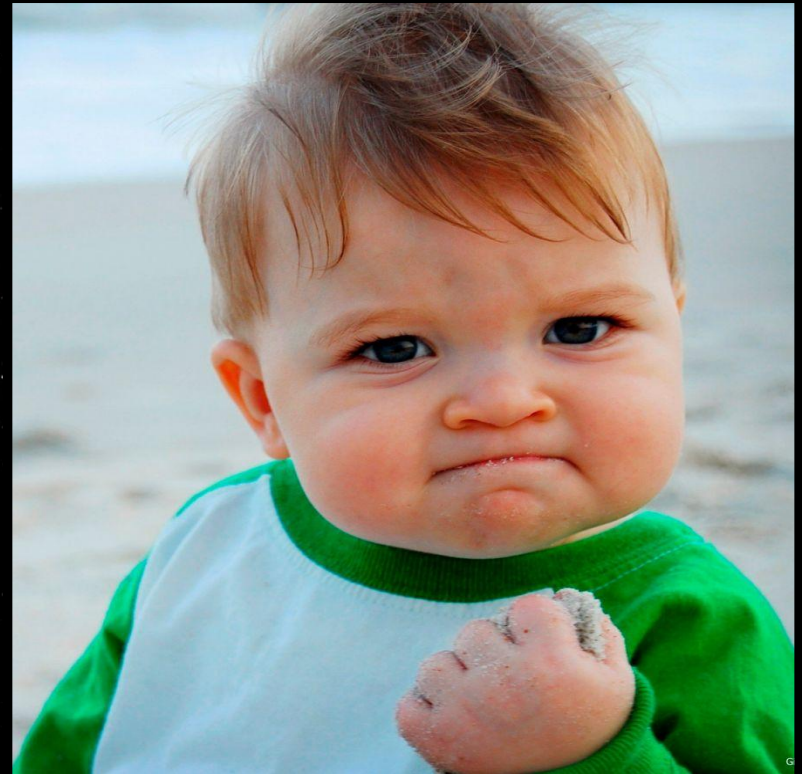

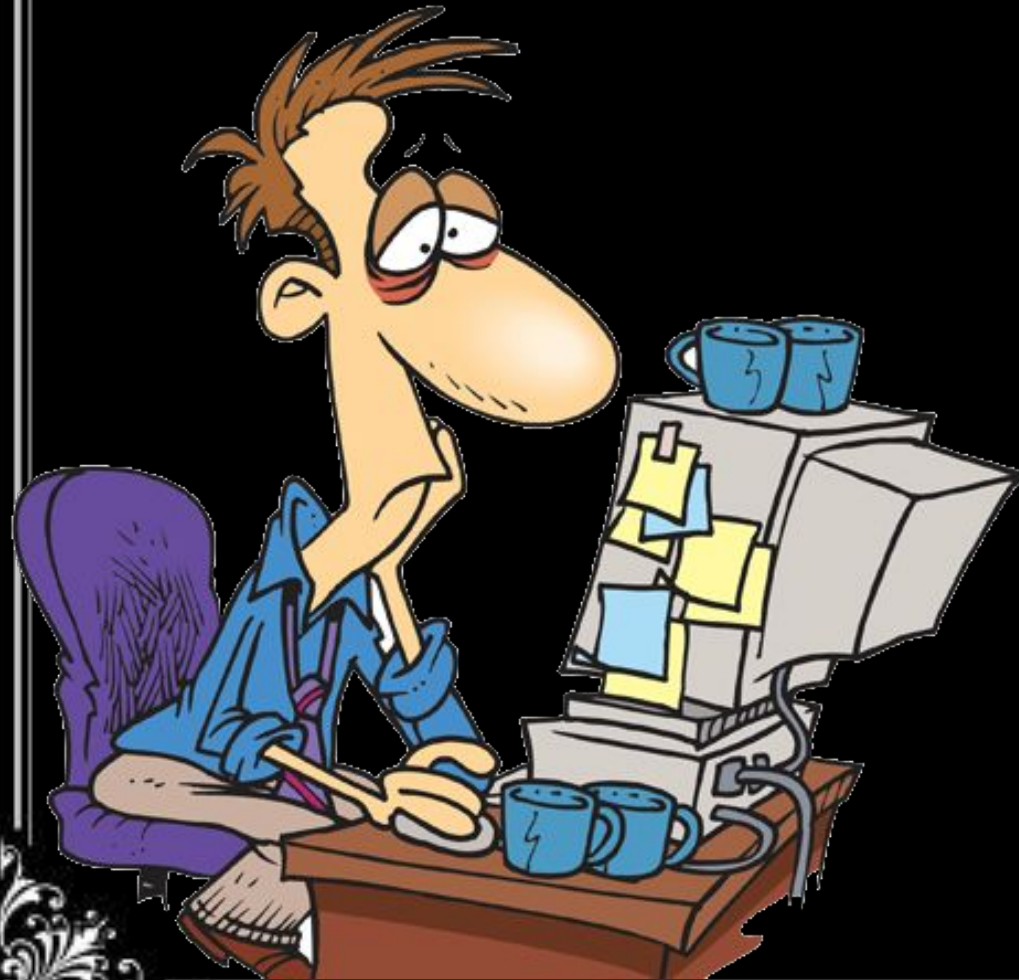

All people want to build
a great career.

From a young age we often thought about what we want to be when we grow up.

We had childhood dreams.

As adults we understand that it is necessary to put a lot of effort to achieve your dreams.

**SINCE CHILDHOOD I
DREAM OF BECOMING
A DOCTOR.**

**In order to build a
career as a successful
doctor ,I need to go to a
medical university and
successfully complete
it.**

**Then you need to get
a job and gain
experience.**

**Yes , it's not easy but I can
handle!!!**

If I had two lives ,
then I would have
built a career as a
professional
musician.

I would improve and achieve great success in this field of activity.

A musician with tattoos is performing on stage, playing a black electric guitar and singing into a vintage-style microphone. The background is a bright, fiery orange and yellow glow, suggesting a stage fire or intense lighting. The text is overlaid in the upper right quadrant.

***MAYBE SOMEDAY I WILL
MANAGE TO FULFILL THIS
DREAM.***

The image features a black background with four decorative corner patterns. Each pattern is a complex, fractal-like design of white and light blue lines, resembling stylized, swirling patterns or intricate knotwork. These patterns are positioned in the corners of the frame, creating a frame-like effect around the central text.

THANKS FOR ATTENTION!!!
