The Americans often call this man “The Father of our country”. And of course, he was one of the founders of the USA. For nearly twenty years he guided his country much as father cares for a growing child.

The first president of the USA
G. Washington was born on the
22nd of February, 1732 in Virginia in a
wealthy family, in a manor
Mount Vernon

His formal education was slight: no more than 7-8 years of school. Men, plantation life, and the haunts of river, fields and forests were his principal teachers. His favourite subject was arithmetic. He studied enough Geography to know something of the outside world. But he never learned very much about literature, foreign languages and History.

At the age of 14 he began to work as a surveyor, which is a way of taking measures and making maps, making many trips into the wilderness areas of Virginia and Pennsylvania.

His first military experience came in the French and Indian wars (1754-1763).

In 1754 he fought against 300 French soldiers ,by this time he was a colonel.

A year later, in 1755 he was elected a commander-in- chief of the Continental Army

In **1759**, in January he married to Martha Dandridge, a rich widow. They had no children. He was a progressive farmer at that time

In **1787** George Washington took part in writing the Constitution for the new country.

After the Constitution had been ratified in **1789, on 30th of April** Washington was unanimously elected to be the president. He still remains the only president who received 100% of electoral votes.

In **1792** George Washington was elected President of the USA for the second term.

Although many wanted him to be the president for the third term, but he declined. He moved back to his beloved Mount Vernon. After three years of retirement, he died at the age of **67 on December 14, 1799**

He was buried there in the family vault.
