*Letter from German*

- Hello!
- My name is Marina.
- I am from German. I will learn English language, because it is necessary in our time. Today English is the language of the world. It is the language of science and technology, trade and cultural life, business and sports. It is major language of diplomacy and the most widespread language on the world. I will learn English, because I need it, if I go to England or to the USA. I can read and understand English books, newspapers, magazines and watch TV, play computer games, if I learn English. Now we buy many clothes from other countries , if we know English well, we can read something about the size of this or that thing. It is clear for us what and where it made of. It is hard work to learn English language ,but I will try to do it.
