- **Put oneself at a risk** – подвергать себя риску;
- **Signal lights** – светофор;
- **To be in a hurry** – торопиться.

READ THE TEXT

«HOW TO USE A CROSSWALK»

Most crashes happened when either the driver or the pedestrian wasn't concentrating and **was in a hurry** to get somewhere. So keep your eyes and ears open and remember it's better to get there late than never.

Many drivers forget the rules after they have been driving for a while and pedestrians don't always make their **moves obvious**. **Take extreme care** and if you can, **acknowledge** each other.

Pedestrians have the right of way over drivers on **footpaths** and **driveways**.

You only go when the lights are green and it is safe.

As the signal starts flashing, continue crossing but don't start crossing – you will be putting yourself at a risk. When the signal is red don't cross.

Pedestrians may cross with care when the signal is green.

Drivers may **proceed** when the traffic signal is green.

Running the red or **amber** light is an **extreme** risk to pedestrians.

Whether you're walking, on a bike or driving, **consider** other road users – it'll help make our roads a safer place for all of us.

ANSWER THE QUESTIONS ON THE TEXT

«HOW TO USE A CROSSWALK?»

1. Why do most crashes happen?
2. What must either a pedestrian or a driver remember when they are on the road?
3. Who has the right way on footpaths and driveways?
4. Is it good or bad when drivers and pedestrians acknowledge each other?
5. When may the pedestrians and drivers go?
6. When do pedestrians risk their lives?
7. When may pedestrians cross the road?

8. What must pedestrians do when the signal starts flashing?
9. When mustn't pedestrians cross the road?

ROAD SAFETY TIPS – SCHOOL

CHILDREN

While walking to school:

- Always walk on the footpath only. On roads without footpath, walk on the extreme right hand side of the roads.
- Do not be impatient on the road. Do not rush or run on the road.
- Cross only at Zebra crossings, traffic signals, subways. Where such facilities do not exist, look for a safe place to cross.
- At the signal lights, cross only a clear green signal. If a crossing is controlled by a policeman, cross only when he signals you to do so.
- While crossing wide roads that have central islands, always cross in two stages. Cross to the central island, stop, and cross when the next section is clear.
- While crossing one-way roads, remember that the traffic will be moving at a higher speeds. Do not cross unless it is safe.
- Never cross a road at a corner, as the motorist taking the turn will not be able to see you in time.
- Running across the road is a bad idea, as you may slip and fall.

ROAD SAFETY TIPS – SCHOOL

CHILDREN

While going by bus:

- Leave home well in time, so that you won't have to run to catch the bus.
 - At the bus stand, always follow the queue. Board the bus only after it has come to a halt, without rushing in or pushing others.
 - While in the bus, shouting or making a noise is definitely bad manners. Such behavior can also distract the driver.
