

Fashion show

- The first impression we make almost fully depends on what we wear and how we wear it. So “present” yourself skillfully is a talent. Teenagers as well as adults try to keep up-to-date and follow fashion so many of them prefer trendy clothes, created by fashion designers. However some of them dress like everyone else. They are not keen on being in fashion. But all teenagers are fond of comfortable clothes that make them feel good.

- Taking into consideration all there aspects I am going to present 3 pieces of teenagers clothing: casual, party and school clothes.

Casual clothes

- Casual clothes with a sporty look are popular. Have a look at these black trousers and long-sleeved shirt made of striped grey and white cotton.

Party clothes

- I hope this long party dress made of green patterned silk with a small collar will be to your liking.

School clothes

I'd like to draw your attention to this comfortable school uniform. It consists of a plain blue skirt, a white blouse and a plain blue long-sleeved jacket.

- I'd be glad if my ideas of fashionable and comfortable clothes coincided with yours.
