tongue [tʌŋ] — язык

vocabulary [və'kæbjʊləri] — 1. словарный состав языка 2. словарный запас 3. список слов

The Adverb (Наречие)

Известное вам наречие **yet** может употребляться не только в отрицательных предложениях типа:

I haven't rung him up yet.

We haven't written the letter yet.

В современном английском языке **yet** часто используется в вопросах, заменяя наречие **already** (уже), которое обычно встречается в утвердительных предложениях. Сравните:

He has already spoken at the meeting.

Has he spoken at the meeting yet?

They have already read [red] the text.

Have they read [red] the text yet?

Наречие **already** тоже может употребляться в вопросах, однако вопросительные предложения с **already** выражают скорее удивление, чем вопрос как таковой:

Have you already done your homework? You started doing it only twenty minutes ago.

7

Use *yet* or *already* to complete these sentences.

- 1) Have you spoken to Mr Williams ...?
- 2) I have ... eaten my lunch.
- 3) He has ... taken us around the cathedral.
