

Parks and Gardens of London

The purpose of my work is -
discovering places of interest in London,
such as parks and gardens

Londoners love their parks and proud of them.

London is very rich in parks and gardens. You can spend the whole day in the country – without leaving London.

Parks of London are full of trees, grass, flowers and water. You can walk among old trees, relax and admire flowers and plants or take part in the many activities such as tennis, swimming and horseriding.

There are a lot of parks and
gardens in London
