

Private Education in Great Britain.

Your Education is worth what You are worth. *Anon*

Educational system in the UK.

Education in England is overseen by the Department for Education and the Department for Business, Innovation and Skills. Local authorities (LAs) take responsibility for implementing policy for public education and state schools at a local level.

The education system is divided into nursery (ages 3-4), primary education (ages 4-11), secondary education (ages 11-18) and tertiary education (ages 18+).

In addition, education is divided into public and private.

The system of private education.

- Seven per cent of British schoolchildren go to private schools called independent schools.
- Parents pay for these schools, and fees vary from about 250 pounds a term for a private nursery to 3.000 pounds a term or more for a secondary boarding school.
- Children of wealthy or aristocratic families often go to the same public school as their parents and their grandparents. Eton is the best known of these schools.

Types of school.

Most state schools have to follow the national curriculum. The most common ones are:

Community schools

Foundations schools

Academies

Grammar schools

Private schools

10 best private schools

1. Cardiff Sixth Form College;
