ЗАДАНИЕ 1.

Task 1. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

Computers have been around for over sixty years and they have changed our lives. It is a well-known fact that the first modern computer began operating in the USA in 1945. This huge machine was the size of a large room. It was also very slow and so complicated to use that only an expert could operate it. That's very different from modern PCs which are so user-friendly that anyone can use them.

During the 1970s, tiny electronic microchips became more common. By the 1980s and 90s, home computers were becoming smaller, faster and cheaper. As a result, more people bought them, so computers became more wide-spread.

- При чтении вслух участник ОГЭ должен продемонстрировать следующие фонетические навыки (их отсутствие ведет к снижению оценки):
- владеть правилами чтения и исключениями из правил, позволяющими произносить слова без грубых ошибок, искажающих смысл слова и приводящих к сбою коммуникации;
- дифференцировать и правильно произносить долгие и краткие гласные: [ɑ:] – [ʌ], [i:] – [ɪ]; [ɔ:] – [ɒ]; [u:] – [ʊ];
- дифференцировать и правильно произносить межзубные [ð]/ [θ] и фрикативные согласные [z]/[s]; не замещать межзубные фрикативными (*think – sink*);

- дифференцировать и правильно произносить губно-губной [w] и губно-зубной [v] согласные;
- дифференцировать и правильно произносить гласные [ɔ:] и [з:] (*walk – work; form – firm*);
- владеть «связующим r» (linking r), т.е. озвучивать конечную r/re в позиции перед гласной, если с гласной начинается следующее слово (например, *there is, where are...*)
- правильно использовать при чтении текста вслух сильную и слабую формы местоимений и других служебных слов.

ЗАДАНИЕ 2.

Task 2. You are going to take part in a telephone survey. You have to answer six questions. Give full answers to the questions.

Task 3. You are going to give a talk about photography. You will have to start in 1.5 minutes and speak for not more than 2 minutes.

Remember to say:

- **why people like taking pictures**
- **why taking photos is more popular today than it was in the past**
- **what the best photo you have ever taken is**

You have to talk continuously.

OTBET:

Now I'm going to give a talk about photography.

In my opinion, taking pictures is really popular now. Many of my friends and classmates have cameras on their mobiles which they use to take photos of everything they like.

*Today taking photos is more popular than it was in the past *because* cameras are less expensive and many people can afford them. You can *even* take pictures using camera on your mobile phone! *Also*, there are a lot of social networks, *for example* Facebook or Vkontakte where people post photos and share them with friends.*

Personally I have one really great photo. It was taken last year in Rome. You can see my mother and me in it. We are standing near a beautiful fountain in the center of the city. The sun is shining and we are smiling.

In the end I would like to say that taking photos helps us save one of the most precious things in life — our memories, which can always be with us when we look at this or that picture.

LET'S PRACTISE!

Task 1. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

The first linguistic theories appeared around the 5th century B.C. in India, Greece, Rome, and China. In order to understand texts better, the first linguists studied different aspects of the language, philosophy, and culture. Most early studies in India were based on ancient songs. For the first time, ancient linguists distinguished the words as nouns and verbs. This is how parts of speech appeared. Grammar and phonetics were later developed in Greece and Rome. Chinese linguists wrote the first dictionaries and synonyms. The first dictionary of the English language appeared much later, in 1755. It had 40,000 words.

Scientists have long been working on new orbital technologies for growing plants. They tried to grow different plants on the International Space Station. Then the plants were sent back to the Earth for further study. This year, for the first time, astronauts could eat green leaves grown in space. Space farming is extremely important for the future space missions planned to Mars because it gives fresh food and vitamins. The new plant growing system is very smart. It informs humans when the plants need water. Special sensors measure the thickness of the leaves. If they become too thin, detectors send signals. This technology helps save water in space and grow a good harvest.

Task 2. You are going to take part in a telephone survey. You have to answer six questions. Give full answers to the questions. Remember that you have 40 seconds to answer each question.

A close-up photograph of a bouquet of flowers. The bouquet features several white lilies with prominent pink or red streaks on their petals, interspersed with vibrant pink roses. The flowers are set against a soft, out-of-focus background of more flowers and green leaves. The lighting is bright and natural, highlighting the delicate textures of the petals.
