Нил — одна из самых длинных рек земного шара, священная река Египта.

Большой Сфинкс — древнейшая сохранившаяся на Земле монументальная скульптура. Высечена из монолитной известковой скалы в виде лежащего на песке льва.

Пирамида Xeonca крупнейшая **U3** египетских пирамид единственн ое из «Семи чудес света», сохранившее ся до наших дней.

Александрия— город в дельте Нила, главный морской порт и второй по величине город Египта.

Одна из главных достопримечательностей Египта - Красное море — самое солёное море из входящих в состав Мирового океана. Особенность Красного моря состоит в том, что в него не впадает ни одна река, а реки обычно несут с собой ил и песок, существенно снижая прозрачность морской воды. Поэтому вода в Красном море кристально чиста.
