Homework check: wb 10 p.52 (Translator's corner)

- Экологическая ситуация на планете Земля очень неблагоприятная. Из-за загрязнения воздуха, воды и почвы многие виды птиц и животных находятся в опасности. Кислотные дожди отравляют воду и почву. Многие виды рыб, животных и растений погибают. Мы должны сделать все, что можем, чтобы уменьшить загрязнение окружающей среды. Нужно убирать мусор, отправлять его на вторичную переработку, чистить пруды, реки и озера. Мы должны постараться сохранить естественную среду обитания животных. Это поможет и людям сохранить здоровье и жизнь.
