1 Task 1. Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 1.5 minutes to read it.

Many parents do not like their children to play video games. One reason is that it is a waste of time. Instead of playing games, they could be spending their time wisely, doing homework, exercising, or cleaning the house. Another reason is that many games are destructive and violent, causing children to behave badly and aggressively in the real world. Finally, video games are often addictive and thus discourage children from having other hobbies and interests. All of these are good reasons to dislike video games. Nevertheless, there are some good reasons to allow children to play them. For one thing, not all video games are mindless time-wasters. Nowadays, there is much more variety and lots of games to choose from that are educational and instructive. Parents simply need to spend more time paying attention to the kinds of games children play and encourage them to choose games that develop their minds.
