

# Excavation in Troy

An aerial photograph of the archaeological site of Troy, showing the city walls and various structures. The city is built on a hillside, and the walls are visible in the foreground. The buildings are made of brick and have flat roofs. The background shows a hazy landscape with some trees and a body of water in the distance.

**Before speaking about excavation, we should remember the history of Troy.**

ГОМЕР  
ИЛИАДА

**“MORE THAN TWO AND A HALF  
THOUSAND YEARS AGO THE BLIND  
SINGER...”**

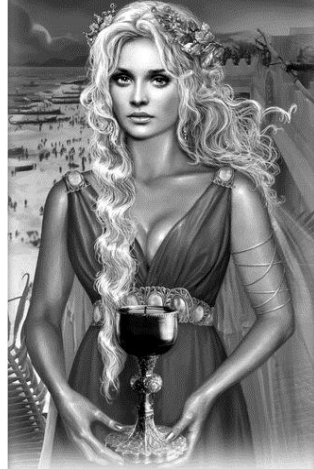

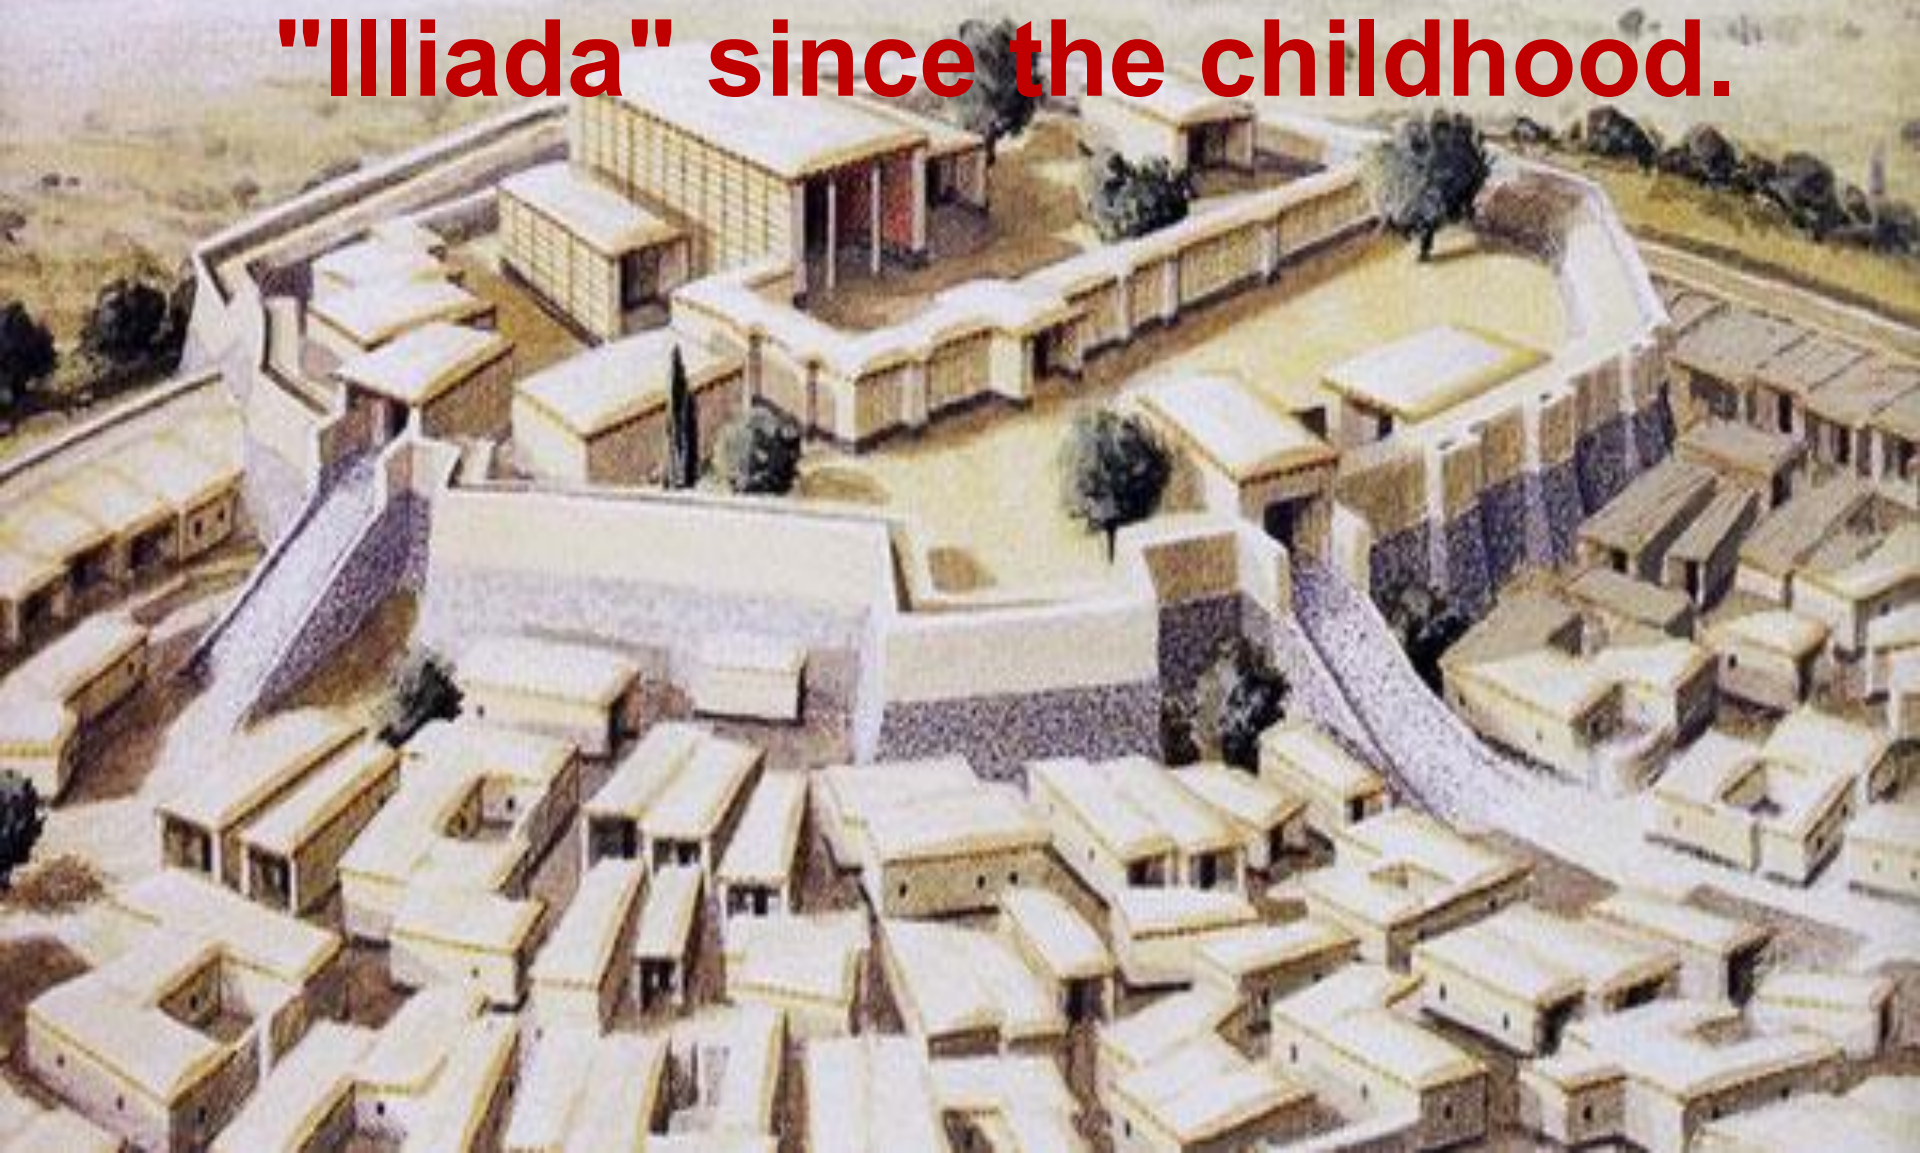

ГЕРОИ ТРОЯНСКОЙ ВОЙНЫ

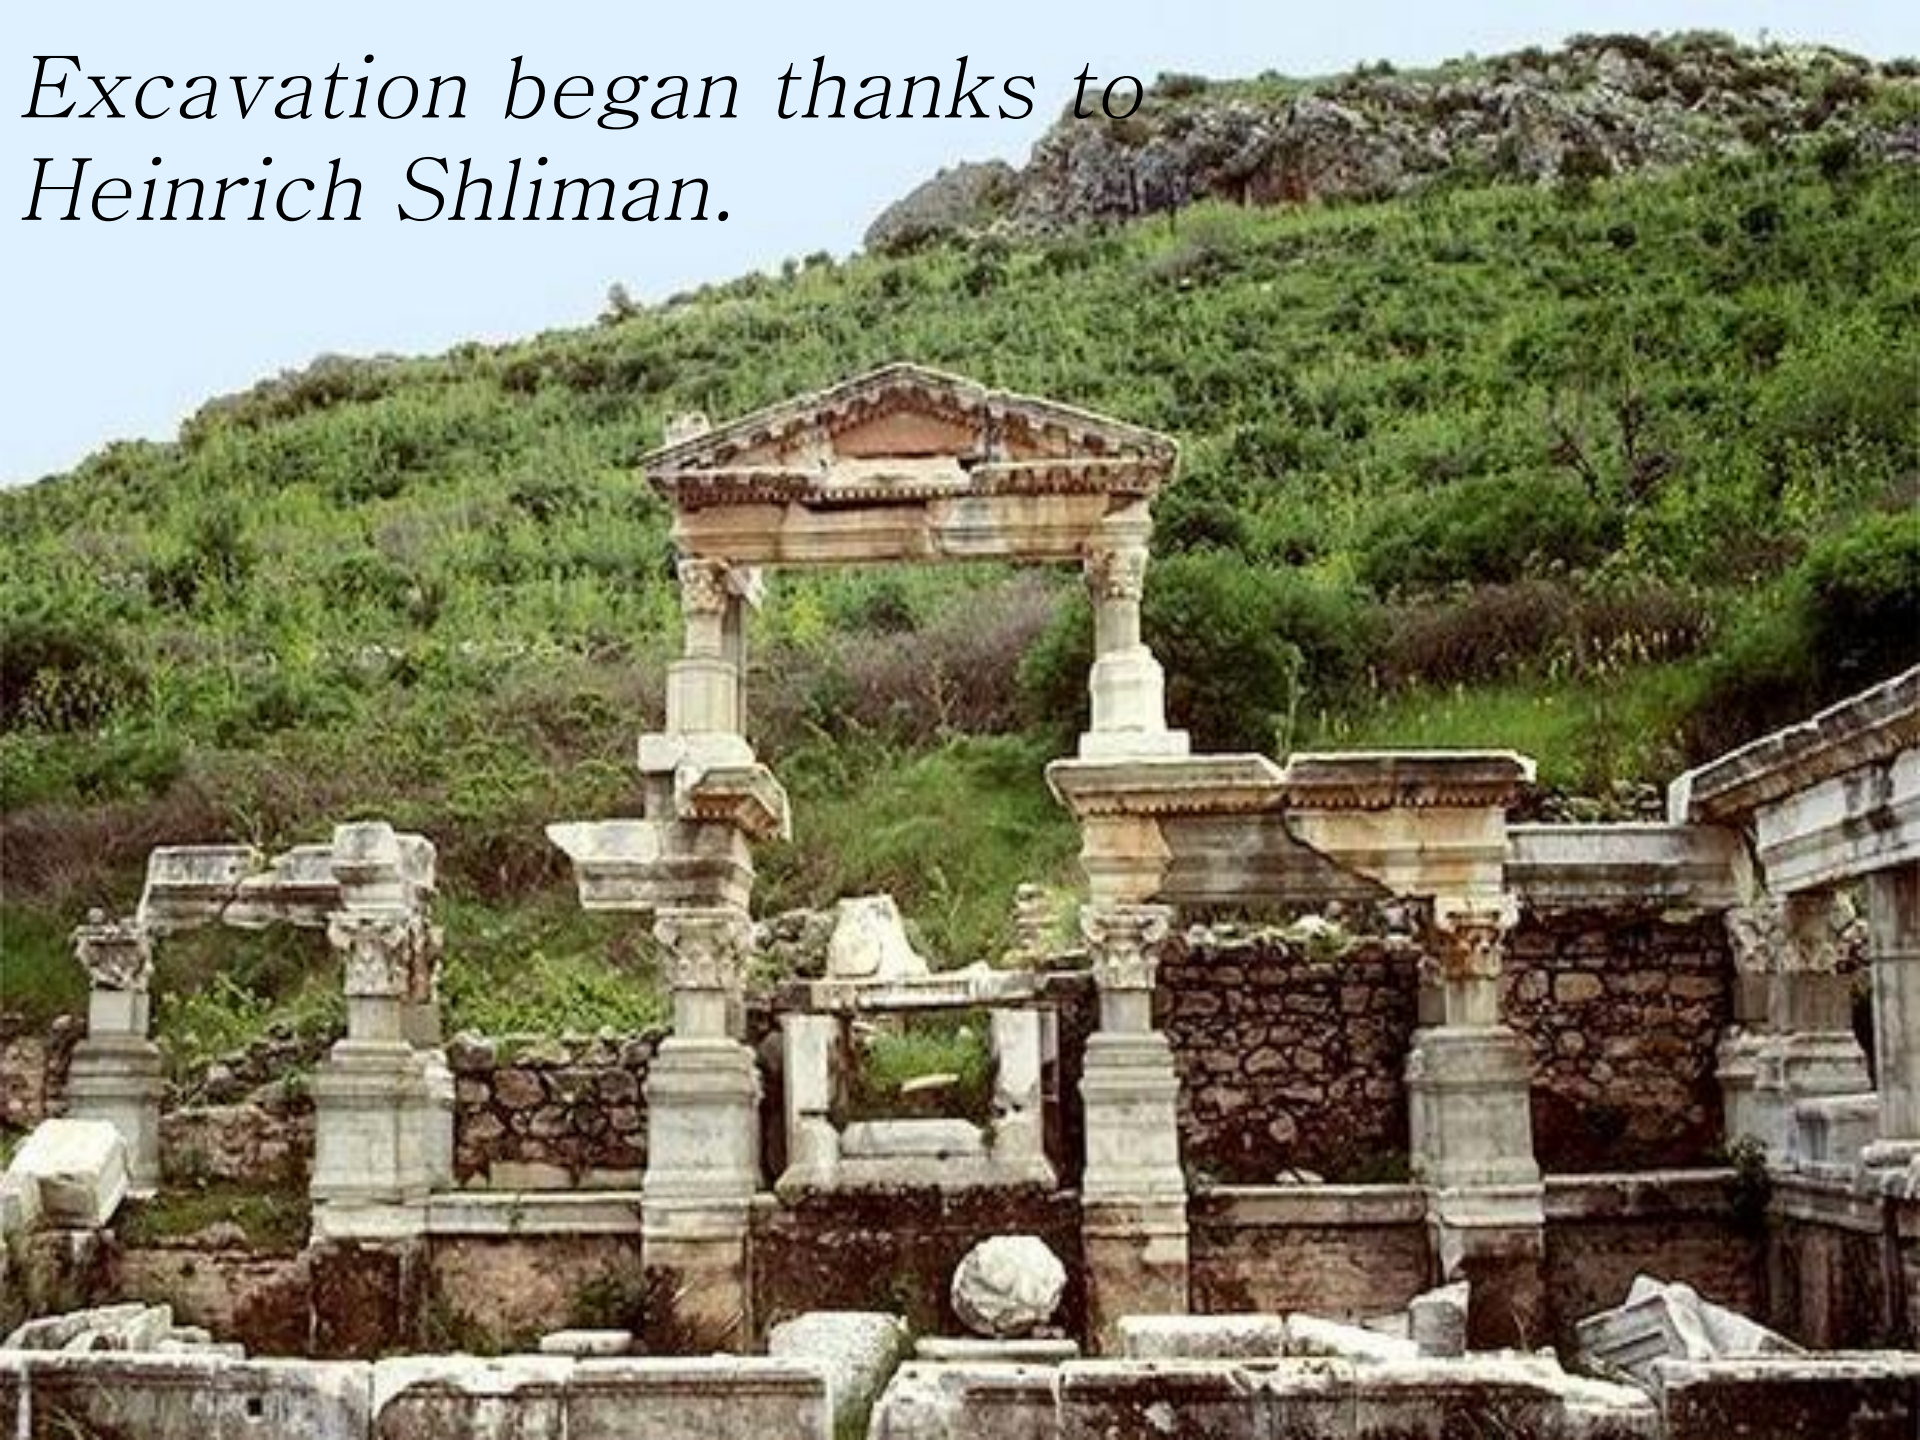

Менелай Парис Диомед Одиссей Нестор Ахиллес Агамемнон

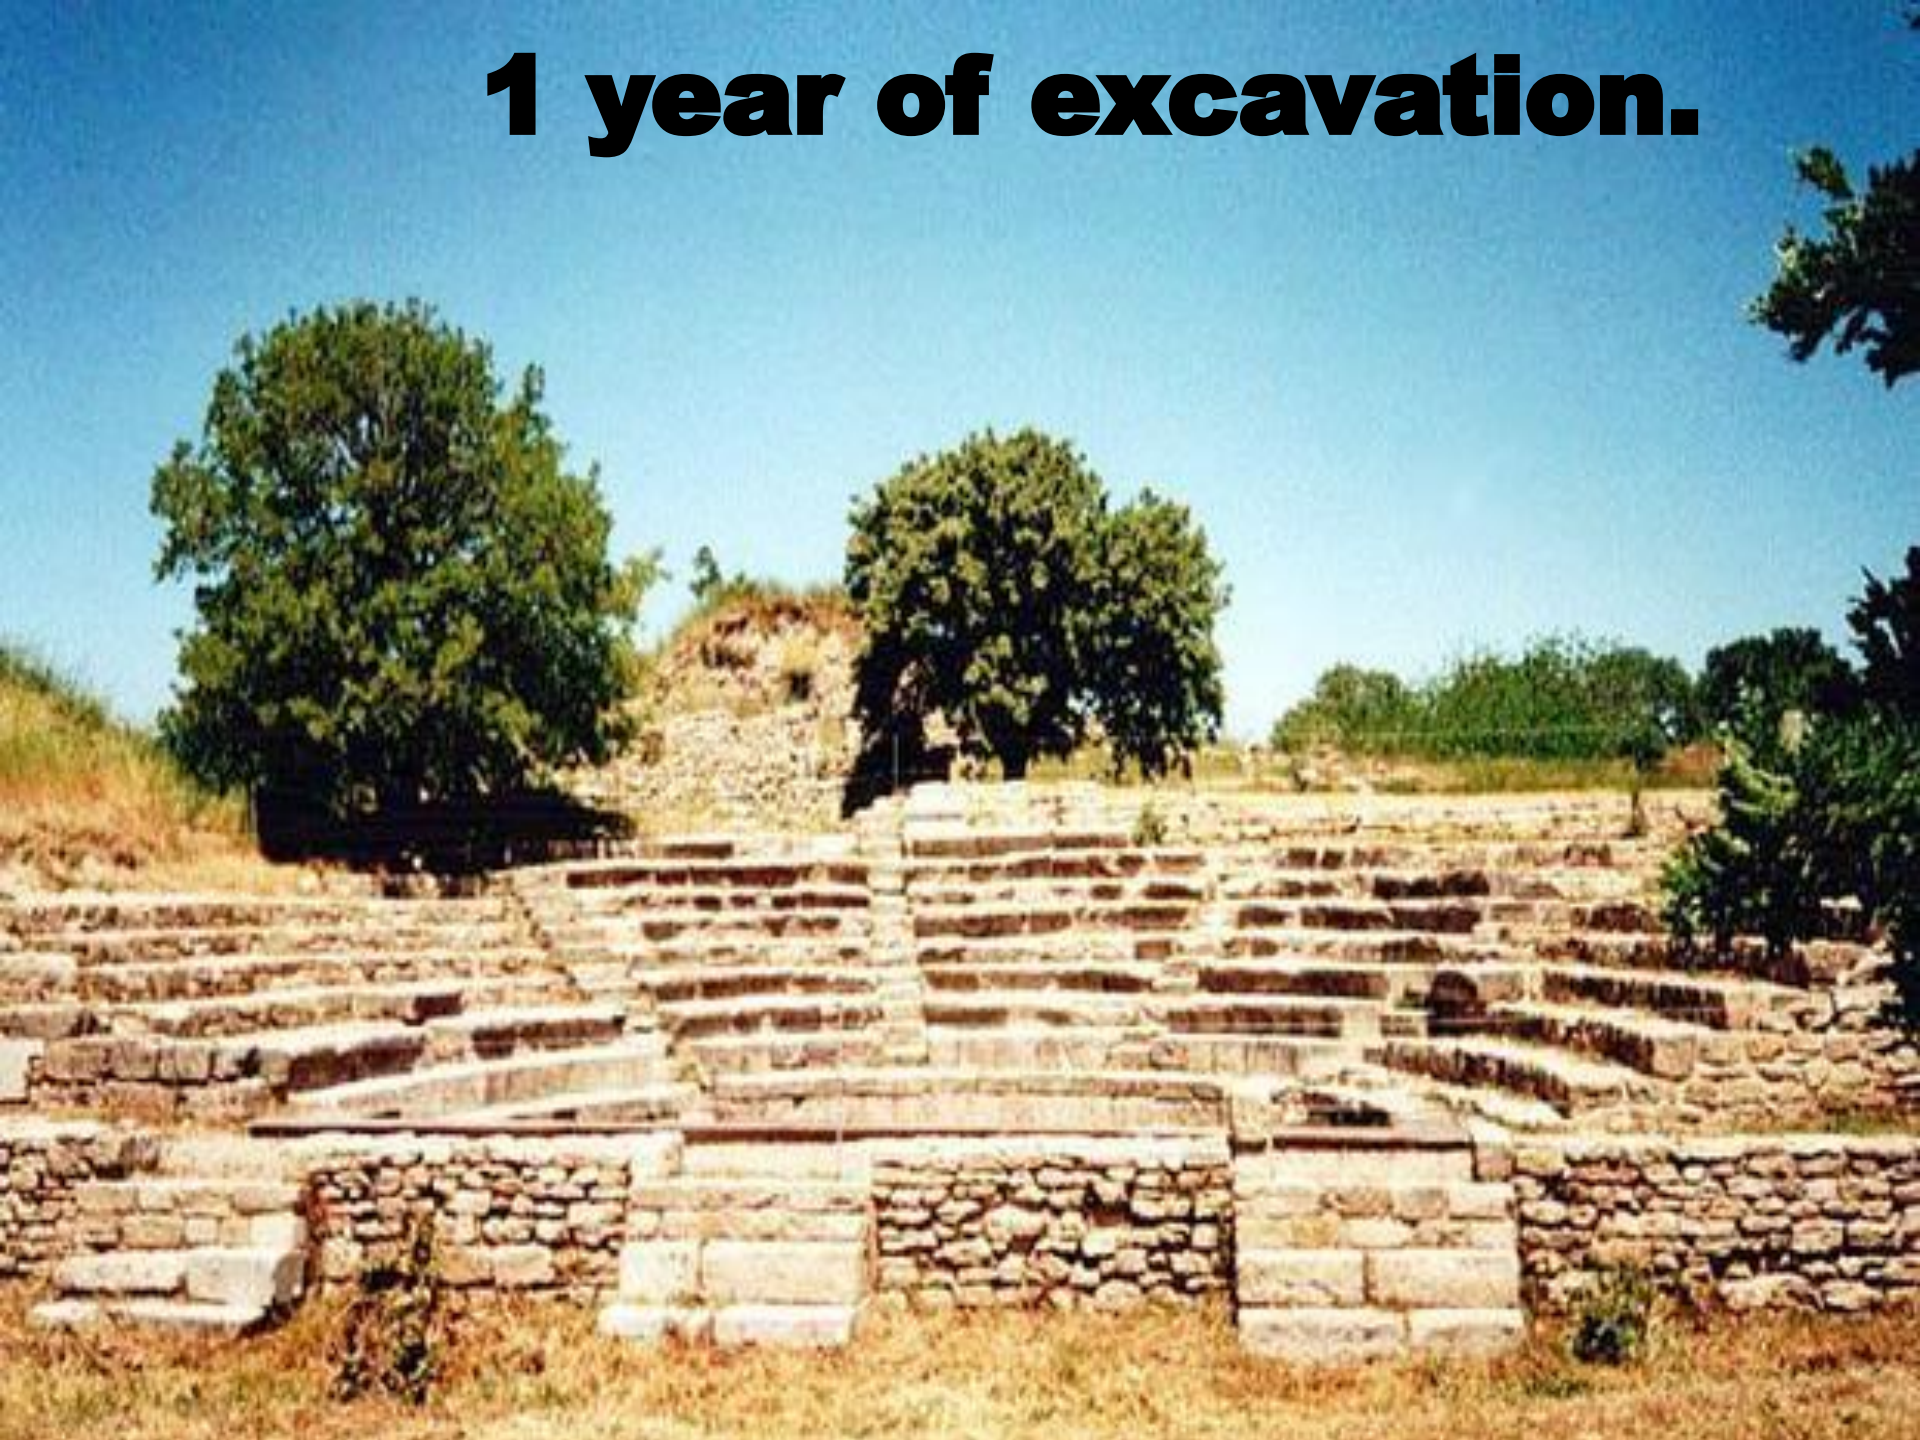

**" Shliman dreamed about the legendary city from homeric "Illiada" since the childhood.**

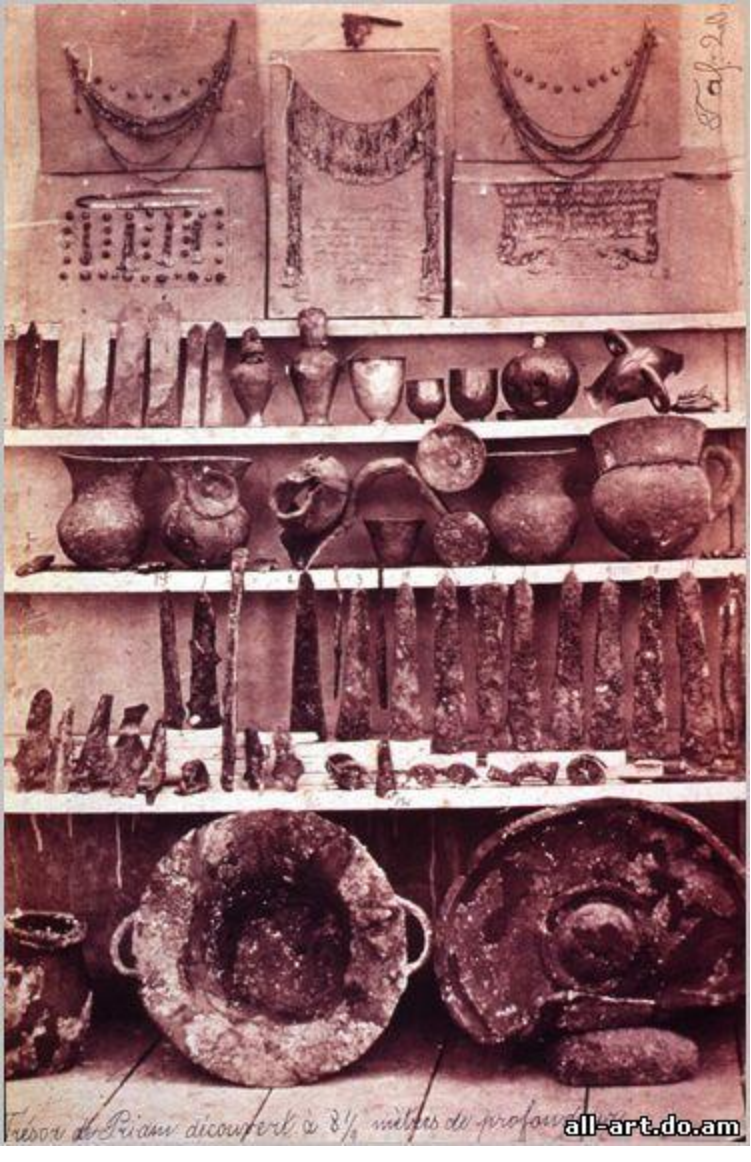

*Excavation began thanks to  
Heinrich Shliman.*

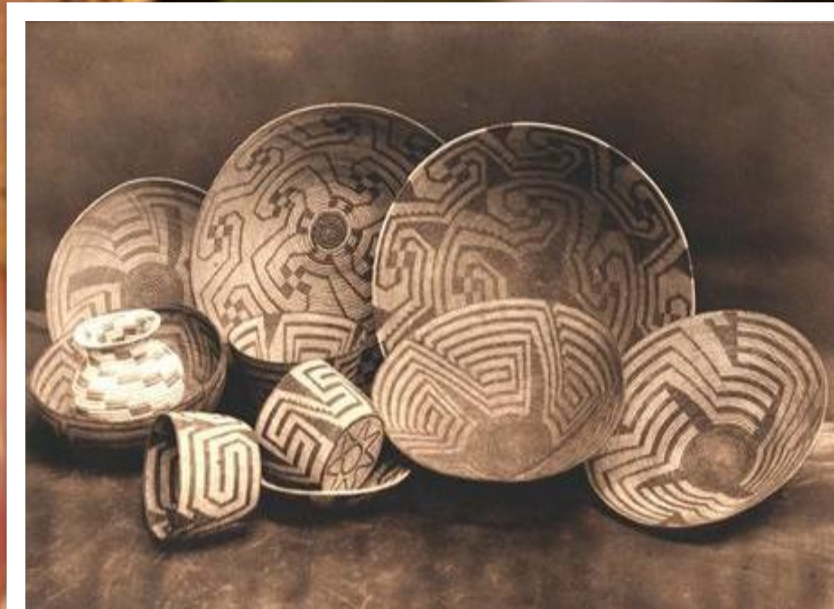

**1 year of excavation.**

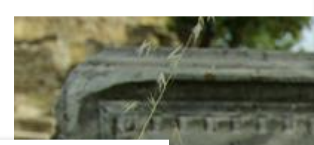

## Pottery.

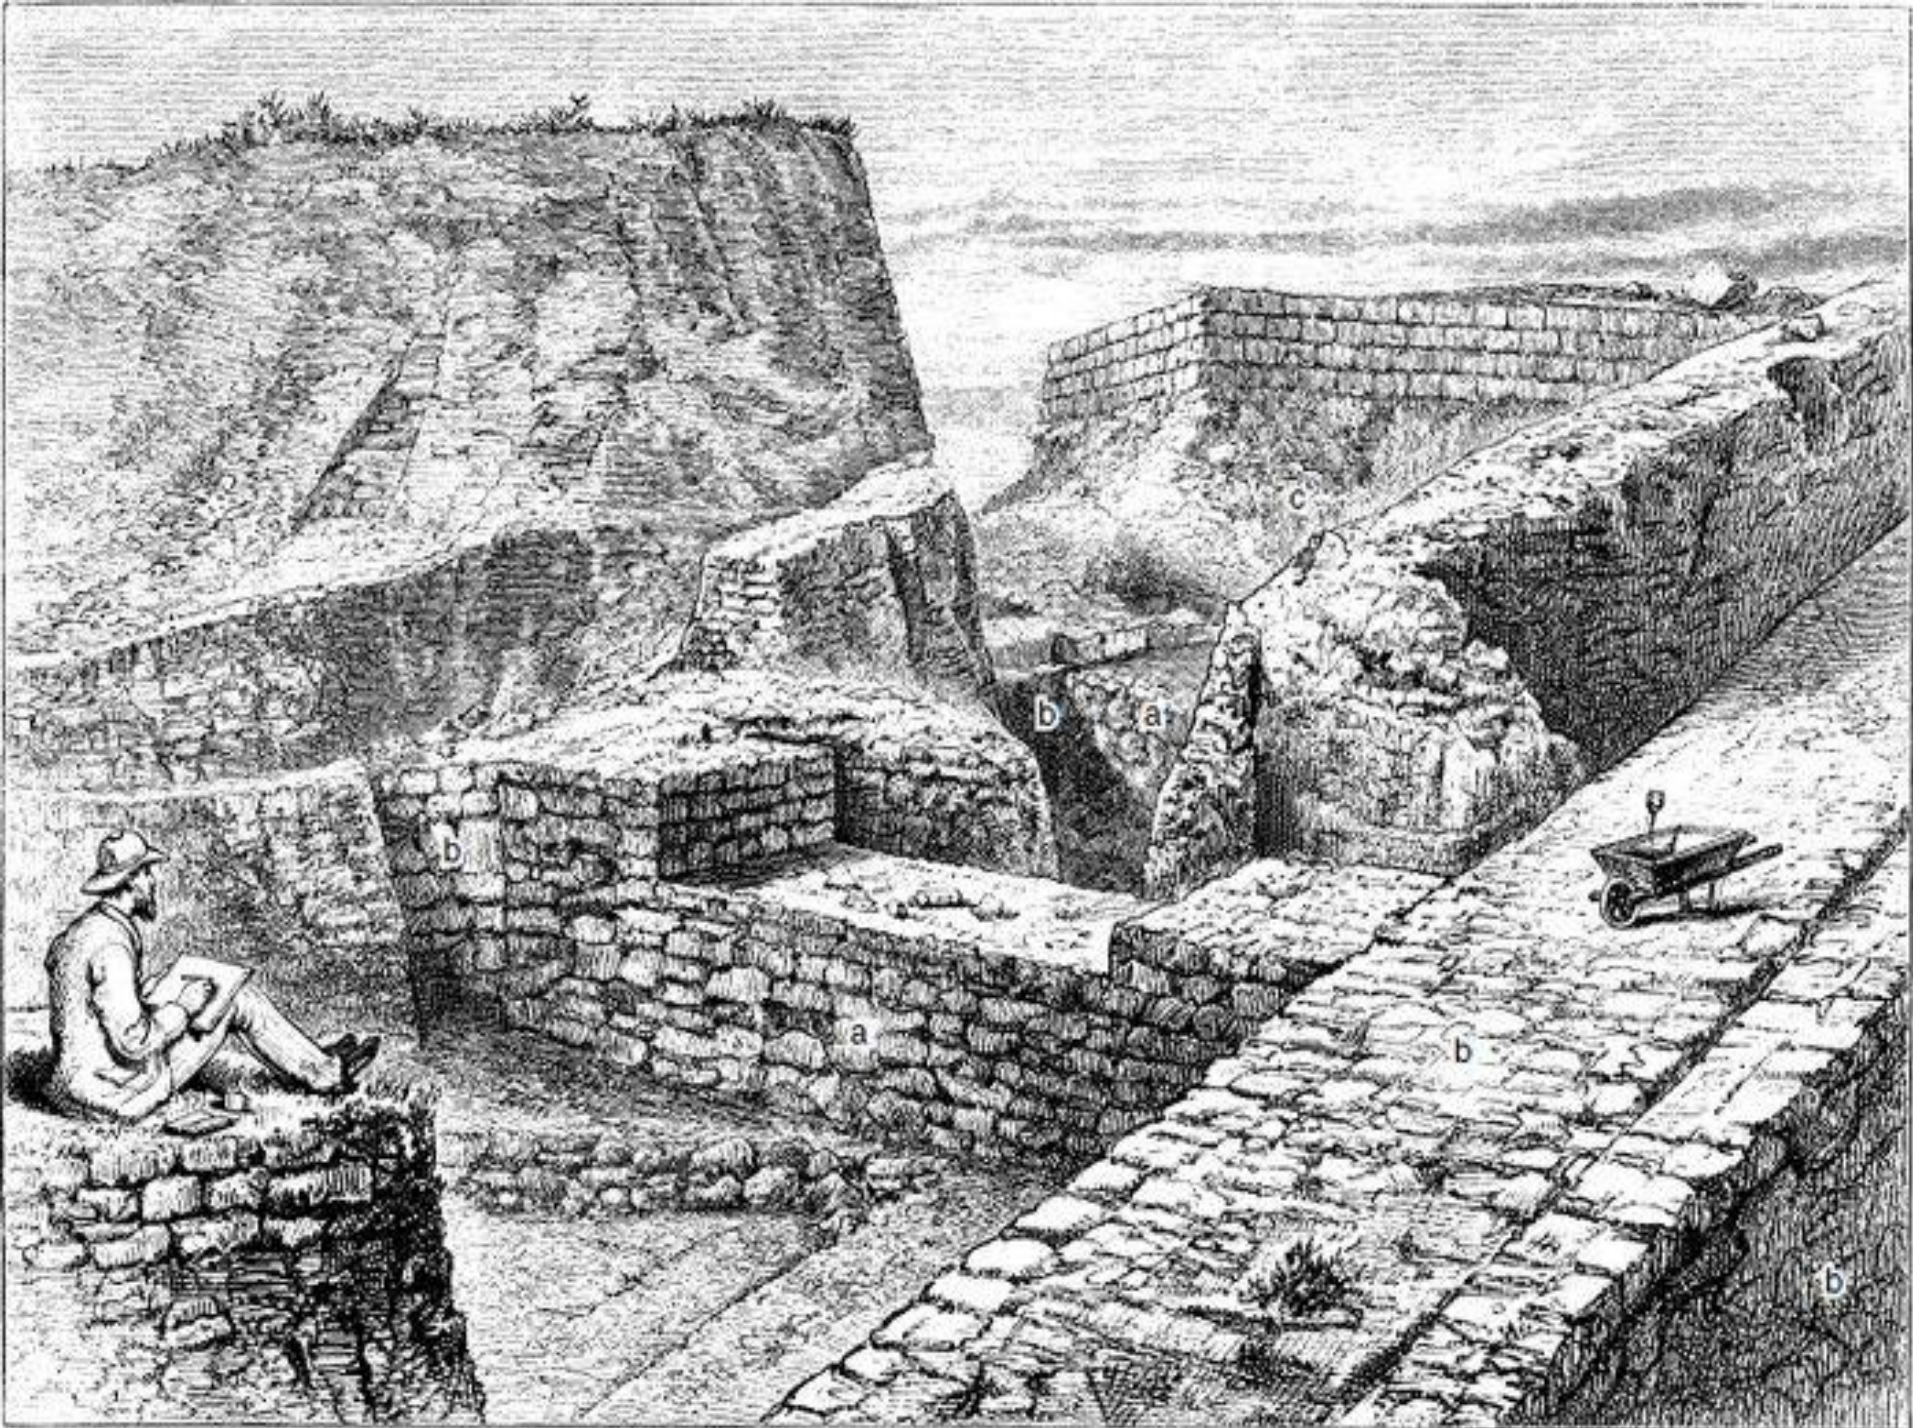

**2 year of excavation.**

**3 year of  
excavation.**

Priam's  
treasure.
