

Drills and Ceremonies

(Строевая подготовка и торжественные марши)

5 b May, 2014

My name is Mukhorkina Sofi and I am a commander of the 5th form squad (отряд). Every year my classmates and I march to commemorate the Victory Day. Let me tell and show you how we train, march and improve our skills.

- Drill training (строевая подготовка) consists of certain movements by which our squad 'Smile' is moved from one formation or one place to another.

- Some of the drill terms are: formation (строй), rank (шеренга), file (ряд), interval (интервал) and distance (дистанция).

- There are two kinds of commands:
- the preparatory command (предварительная команда)
- and the command of execution (команда на исполнение).
