There is much difference between films and books. And what is better:

wa

**44% of people prefer reading books while
56% of people prefer seeing a movie.**

But most people, who watch the film after having read the book, think that it is better to read the book first.

When you read, you have to think, use your imagination - you imagine people, things, sounds, landscapes.

Besides, when we read a book we have more time to think over many problems - when we watch a film we don't have enough time for it.

Most books develop our mind, because all ideas are presented in the book with the help of words and to picture them individually is

The advantage of watching films is that we watch a film about 2 hours while we can read a book for many days.

When you are bored, you can go to the cinema or sit in front of the TV set and watch any movie you want.

All ideas are presented in the film in pictures, sounds and actor's performance.

Watching a film is a very pleasant activity. If you watch a film you don't have to think a lot - you only look at the screen.

Do YOU Think The Same????
