Children often give their Mothers a gift and a card.

Mothering Sunday

WITH
LOVE ON
MOTHERING
SUNDAY

Manor houses, mansions and castles needed their domestic servants on hand at all times, to keep domestic affairs running smoothly. Many of those servants were young boys and girls "in service."

Early Christians in England celebrated the fourth Sunday of Lent to honor the Virgin Mary, Mother of Christ ... and also, "Mother Church." During this period, people commonly returned to their local church or cathedral - their "mother church." Those who did so were said to have gone "a-mothering."

In the 1600's a clerical decree in England broadened the celebration from one focused on the church and the Virgin Mary, to include real Mothers, referring to the occasion as Mothering Day.

Often those young servants were allowed only one day off a year to visit family. That day became Mothering Sunday, and as such, Mothering Sunday became a very important occasion for families to reunite and celebrate their love for one and other.

Mothering Sunday Vs Mother's Day - What's in a Name?

Today, Mothering Sunday in the UK is often called "Mother's Day" and is regarded as more or less synonymous with "Mother's Day" as celebrated in other countries around the world, though many still prefer the more historically accurate "Mothering Sunday."

мамы”.*

Simnel Cakes

It was also out of this situation that Simnel Cakes became associated with Mothering Sunday. Young servants and maids were often allowed to bake a cake to take home to their mother as a gift. Fruit cakes knowns as "Simnel Cakes" became one of the most common of these Mothering Sunday gifts.

"О той, кто дарует нам жизнь и тепло..."
