

Project

A Perfect school

made by Alina Gorbatenko

form 7 B lyceum №4

- I believe that in a perfect school rules should not be too strict.
- The school curriculum should not be overloaded.
- The school must be clean and spacious.
- On school grounds should be a small park.

- In a perfect school should not be a lot of tests.
- Teachers should ask as little homework, so children will have more time to lessons in the groups and sections.

There should be a
computer room and
a sport hall.
