

The project

“My room”

- I wish my room would be light and comfortable.

The most important part of my room

- The most important part of my room will be a computer table. It must be big and well-lit to do my homework.

- I wish I had in my room not very big TV set and comfortable sofa with which I would watch different films.

My wall unit

- In my room should be a wall unit, in which I keep my school accessories

Thank you
for attention!
