

The Problems of the Earth

Municipal Budget Institution of General
Education
Gimnasiya #5

Khabarovsk 2017

Aim Tasks

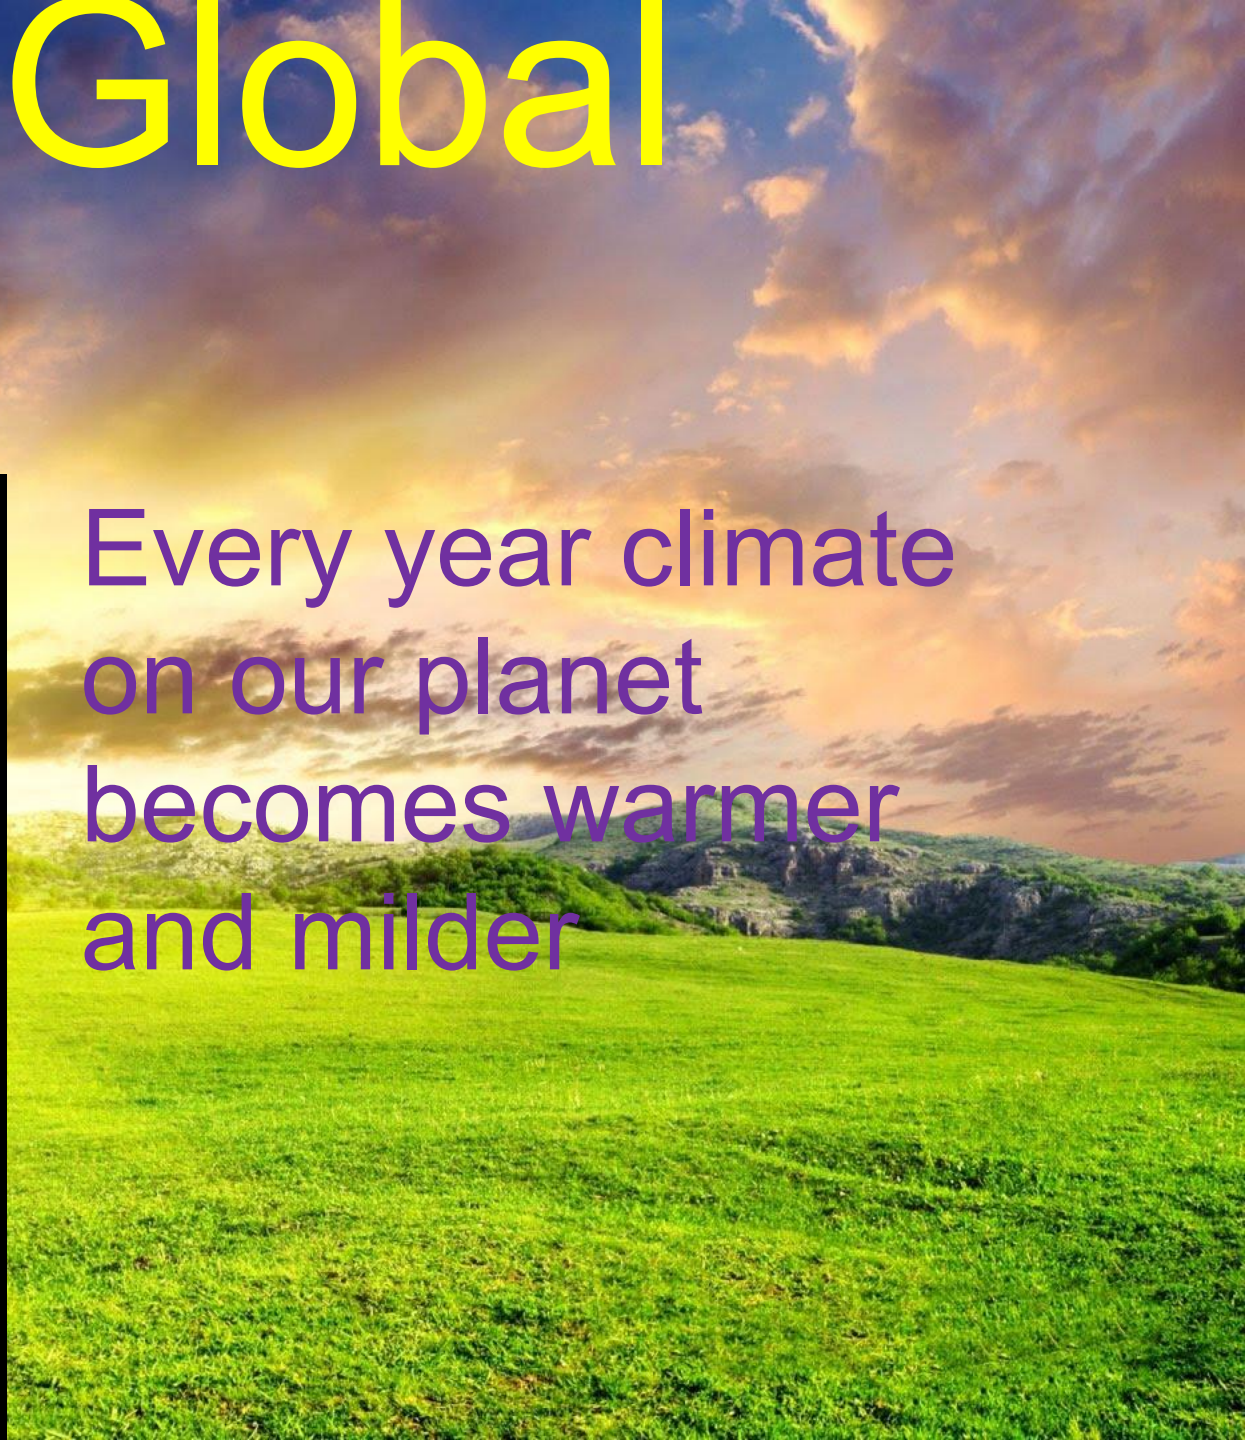

Showing the most serious problems of
the our planet

- To find out the most serious problems
of the Earth
- To present measures how to protect
our planet

The Global Warming

Every year climate on our planet becomes warmer and milder

Dirty Water

People threw rubbish in to the lakes, rivers, oceans and seas and if they wont stop, all water will be dirty

Not Fresh Air

Now a days its difficult to breathe in big cities, because there are lot of fabrics what makes air dirty

Lot of Rubbish on the Ground

now people put lot of rubbish on the ground and soon our plant can turn to a big peace of trash

Cutting Down the Forests

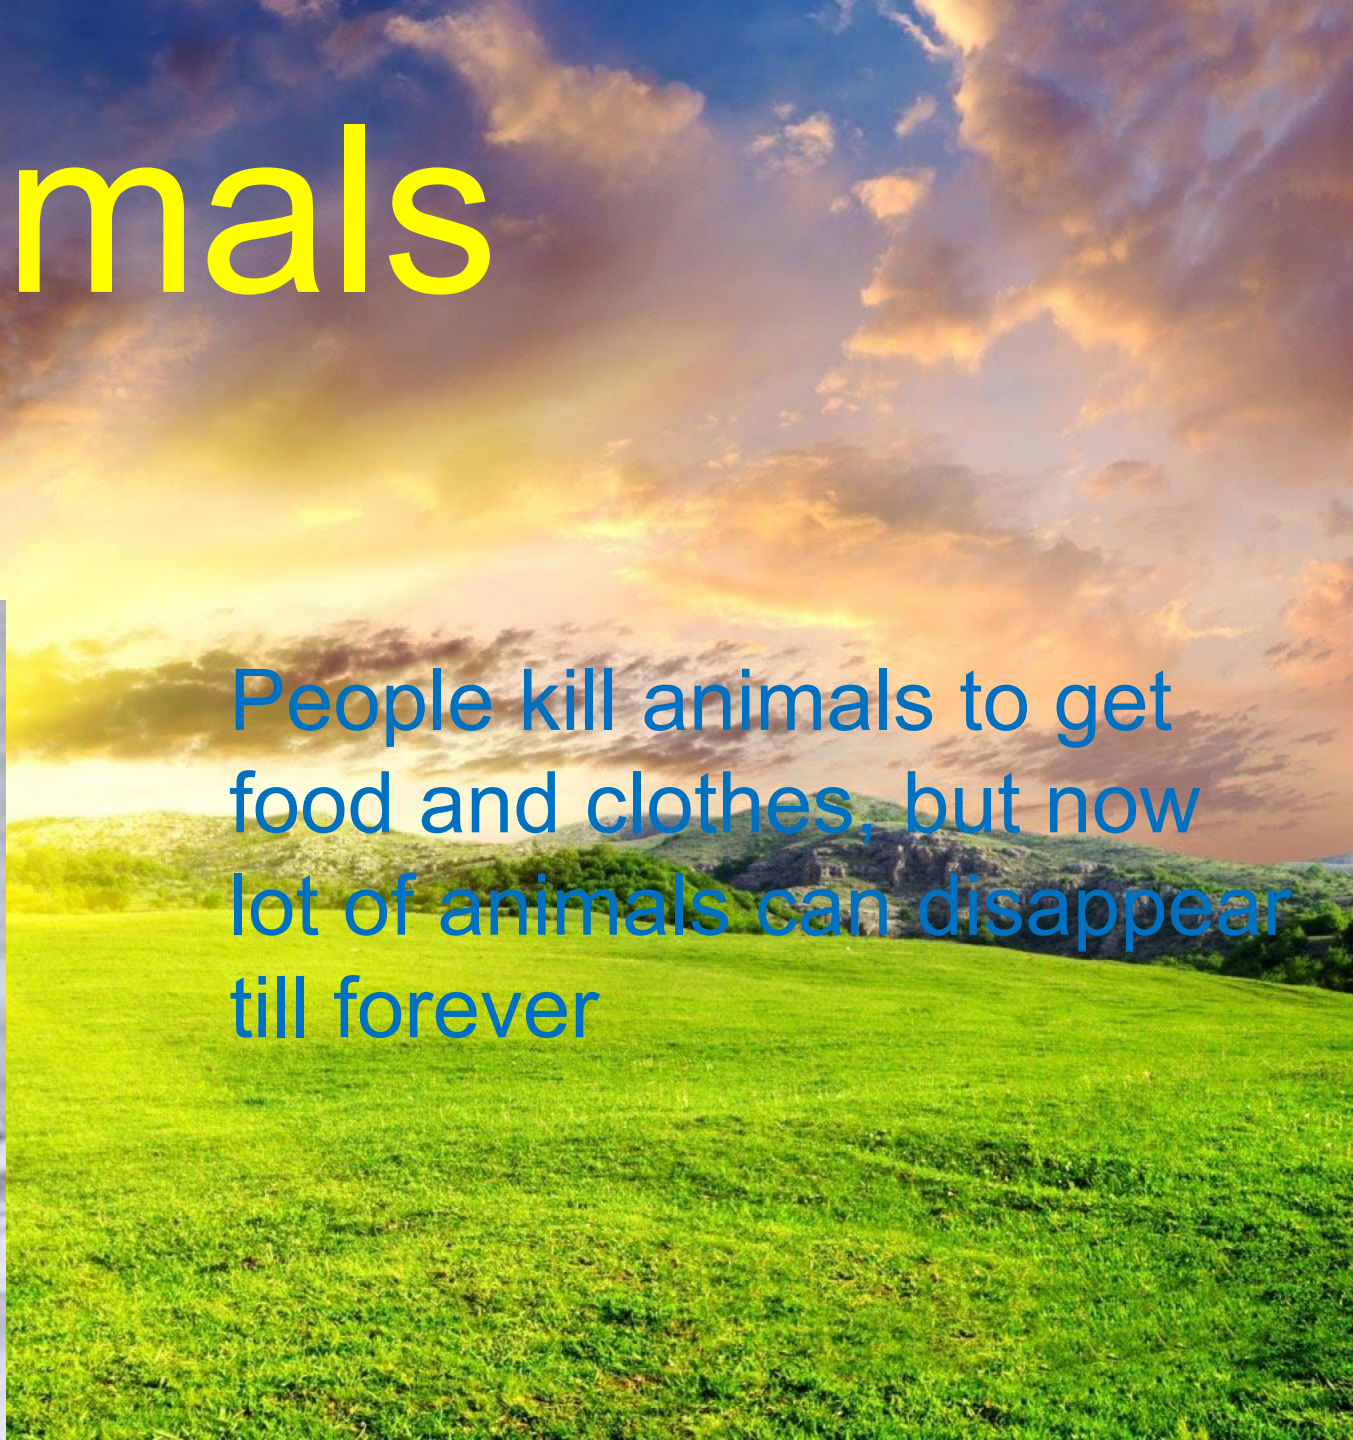

Nowadays people cut down forests and if they won't stop lots of animals will lose their homes

Killing Animals

People kill animals to get food and clothes, but now lot of animals can disappear till forever

Conclusion

We must protect our planet.

Do not throw rubbish into the water and on the ground.

Do not kill animals.

Do not cut down forests and do not make air dirty.

Our planet is a unique place!

Bibliography

A stack of five books is shown on a wooden surface. The books have various colored covers: red, black, red, red, and green. The pages are yellowed with age. A red ribbon bookmark is visible in the top book.

The image is a composite. The background is a view of Earth from space, showing a blue atmosphere and a dark, starry sky. A bright sun is visible on the right side, creating a lens flare effect. In the foreground, there is a 3D topographic map of Europe, showing the continent's terrain, including mountains and rivers. The map is rendered in shades of green and brown, with white snow-capped peaks. The text "Thank You For Your Attention" is overlaid in a large, bold, yellow font.

**Thank You
For Your
Attention**
