-People have invented a lot of useful things to make their life more comfortable.

-Almost every day a new technique or product appears in the world.

But they always need something more useful, more effective, more comfortable.

Teacher:

You will fill “Time Capsule” with favourite inventions of our time for other pupils to read, for pupils, who will come after you.

They will also speak about it and, perhaps, will add some new items.

There were many great inventions in the last century, all of which have changed our world and our lives.

So it would be difficult to choose some of them to put in a Time Capsule.
