

# BOARD GAMES

# CLUEDO

**Cluedo or Clue is a popular board game originally produced by Parker Brothers. It has been a family favorite for generations. The object of the game is to solve a murder. Who did it? With what weapon? In which room? As you make suggestions about the murder suspect, weapon, and location, you will eliminate possibilities and get closer to the truth.**

# SCRABBLE

**When playing Scrabble, anywhere from two to four players will enjoy the game. The object when playing is to score more points than other players. As words are placed on the game board, points are collected and each letter that is used in the game will have a different point value. The main strategy is to play words that have the highest possible score based on the combination of letters.**

# MONOPOLY

**Monopoly is a classic board game beloved by people of all ages, but it can be pretty tough to learn to play! It is a board game played by two to eight players on a board with spaces. In the original version the spaces were named after streets. These streets are actual streets in Atlantic City in New Jersey in the United States. In the British original version, they are named after streets in London. Like many board games, each person has his own game token that he moves on the board. The object of the game is to own as much land (property) and be the richest person.**
