

my favorite animal
meerkat

My favorite animal is a meerkat. They live in South Africa. I love meerkats for the fact that they are cute and are quickly tied to their owners.

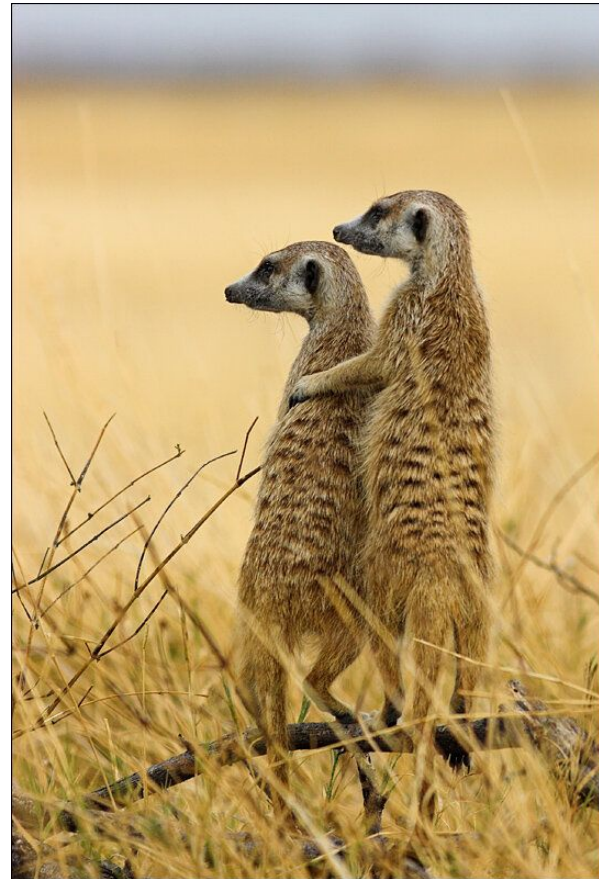

What meerkats eat

Basically, meerkats eat nasikami, but they like other snacks, such as: chocolate, fruits and berries.

About meerkats

for a long time, the aborigines often keep them as pets, which destroy snakes, poisonous insects and rodents. The main leader of the pack will always be the female founder of the genus, or the strongest
