

DEVELOPMENT OF VOLUNTEER MOVEMENT IN OUR SCHOOL.

Gureeva Arina 8th form
school №21

AIM-DEVELOPMENT OF VOLUNTEER MOVEMENT IN OUR SCHOOL.

Purpose of work:

Promotion of volunteer activity among peers.

1. Popularization of the volunteer movement among students in our school
2. Making a revue of volunteering in Noginsk
3. Draw attention to the problems of other people and the necessity to help them.

Volunteers, from the point of view of the law of the Russian Federation, are individuals who carry out charitable activities in the form of gratuitously performing works and rendering services. Such free labor is a kind of patronage. Voluntary work is not paid. Volunteers are not only altruists, they work for the acquisition of experience, special skills and knowledge, establishing personal contacts, self-realization, spiritual growth and improvement.

Who is a volunteer? A person of any gender, age, religion who: - participates in volunteer service in his country or abroad, following his conscious decision - involves himself in the process of personal education by participating in activities that offer solutions or new approaches to problems already existing in society ; is part of the process of change in society - is active in projects aimed at the common good that do not derive commercial benefits

My mother and I have been engaged in volunteer work for a long time. Basically, we collected clothes for the needy, engaged in charity, such as collecting food for low-income families and accumulating money for treatment for children with complex diseases. We participate in formal and unofficial volunteer activities, we operate within the framework of the "More Life" fund or we independently collect things and pack them into the far regions.

Recently I attended a volunteer event from the "More Life" foundation, our job was to collect food for the poor, children with disabilities and children in orphanages. We stood at the entrance to the "Billa" store and handed out leaflets with our charity action, reminding people that they can do good only by donating one or more products to the needy. Our shift lasted five hours, all this time we worked without rest, motivating ourselves that we can help and make a happier one person or the whole family. At the end of the shift, they all got tired, but were satisfied with new acquaintances and work done. Now, as never before, I began to understand how important it is to help people. Very often we live, not paying attention to others, their troubles and sorrows. I really want to see less indifferent people around, so I decided to tell my classmates about volunteerism, which organizations in our city are helping other people.

Добру все возрасты покорны

2018 ГОД ОБЪЯВЛЕН ГОДОМ ДОБРОВОЛЬЦА (ВОЛОНТЁРА) В РОССИИ

Для того, чтобы совершать добрые дела, не надо быть супергероем - сверхсильным и мощным. Для того, чтобы помогать людям, нужно иметь большое сердце и огромное желание сделать этот мир чуточку лучше.

По мнению экспертов, благодаря поддержке волонтеров на высоком государственном уровне за последние три года добровольчество из редкого явле-

ния превратилось в мощное движение, охватившее всю страну.

В большой и дружной семье волонтеров благотворительного фонда «Больше жизни» есть особенные люди. Многим из них нет ещё 18, а самому юному – 9 лет. Это дети, которые понимают, насколько важна бескорыстная помощь и готовы в меру своих сил участвовать в добровольческих мероприятиях. Они участвуют в социальных акциях поддержки малоимущих, помогают в работе просветительских мероприятий о семейных ценностях, обеспечивают порядок на многочисленных выездных акциях фонда - присматривают за младшими детьми.

- Маленькие волонтеры приносят колоссальную помощь, - говорит основатель фонда «Больше Жизни» Светлана Волокита. - Ребята очень отзывчивы и не по-детски ответственны. В основном все наши дети-волонтеры из многодетных семей, так что дисциплина

121 активная волонтерская семья

ОБЪЕДИНИЛАСЬ В ФОНДЕ «БОЛЬШЕ ЖИЗНИ».

заложена в них с детства, а вот желание бескорыстно трудиться на благо других – это их собственный выбор. Ребята, которые участвуют в акциях фонда, естественно перенимают пример своих родителей. Это лучший метод вовлечения в волонтерское движение и базис, на котором, надеюсь, они будут строить своё будущее.

Волонтерское движение

активно развивается. Людей, которые добровольно готовы потратить свои силы и время на пользу обществу или конкретному человеку, с каждым днём становится всё больше. Дети-волонтеры из фонда «Больше Жизни» мечтают сделать много хорошего. Что значит быть волонтером, чем можно помочь людям? Спросим у них самих.

Арина
ГУРЕЕВА (14 лет):

- Быть волонтером - для меня значит помогать другим людям, которые нуждаются в материальной или душевной поддержке, это воспитание и собственного духа. С каждым сделанным мной делом я дисциплинирую свою силу воли, делаю мир чуточку счастливее и добрее. В предстоящих проектах я бы хотела поработать с маленькими детьми, на спортивных мероприятиях.

Татьяна
БЕЛЯЕВА (15 лет):

- Волонтерство – это стремление помогать. Я бы хотела помогать малышам, у которых нет родителей.

Руслана
ЛУЧИНИНА (15 лет):

- Быть волонтером – значит быть добровольцем, отдавать обществу часть своей жизни, делать его лучше, нести добро. Я бы предложила помощь «тимуровца» для пожилых инвалидов.

Дэвид
ЗАЯЦ (17 лет):

- Добровольцы - это, прежде всего, дословно - люди доброй воли; люди, которые остро реагируют на чужую беду или несправедливость. А лично для меня - это возможность «прокачать» свои лидерские качества и, конечно, некое преодоление собственных стереотипов. В будущем я хочу мобилизовать вокруг себя молодых ребят, которым небезразлично будущее нашей страны. Есть интересные идеи, которые мы будем воплощать вместе.

ПОДПИСАЛ УКАЗ
«О ПРОВЕДЕНИИ
В РОССИЙСКОЙ
ФЕДЕРАЦИИ ГОДА
ДОБРОВОЛЬЦА
(ВОЛОНТЁРА)».

I believe that in our Noginsk lives a lot of people who are not indifferent! In Russia, the volunteer movement has long-standing roots. And our hometown of Noginsk is no exception. In Noginsk, anyone can volunteer. Especially volunteerism is promoted among the youth, such patriotic clubs as "Yunost" and "Patriots of Muscovy", the Military Patriotic Club "Patriots" on the basis of GBOU SPO MO PC "Energia" in the OGT of Noginsk, as well as the Military Club "Doprizivnik" MBDO TsDPM. On the territory of the Noginsk municipal district there are volunteer associations: the Volunteer Movement of the Students of the Noginsk Branch of the Moscow State University of Foreign Literature, the Volunteer Movement of the Youth Movement "Youth Center" Yunost "and the Noginsk Branch of the All-Russian Public Organization" Russian Union of Rescuers ".

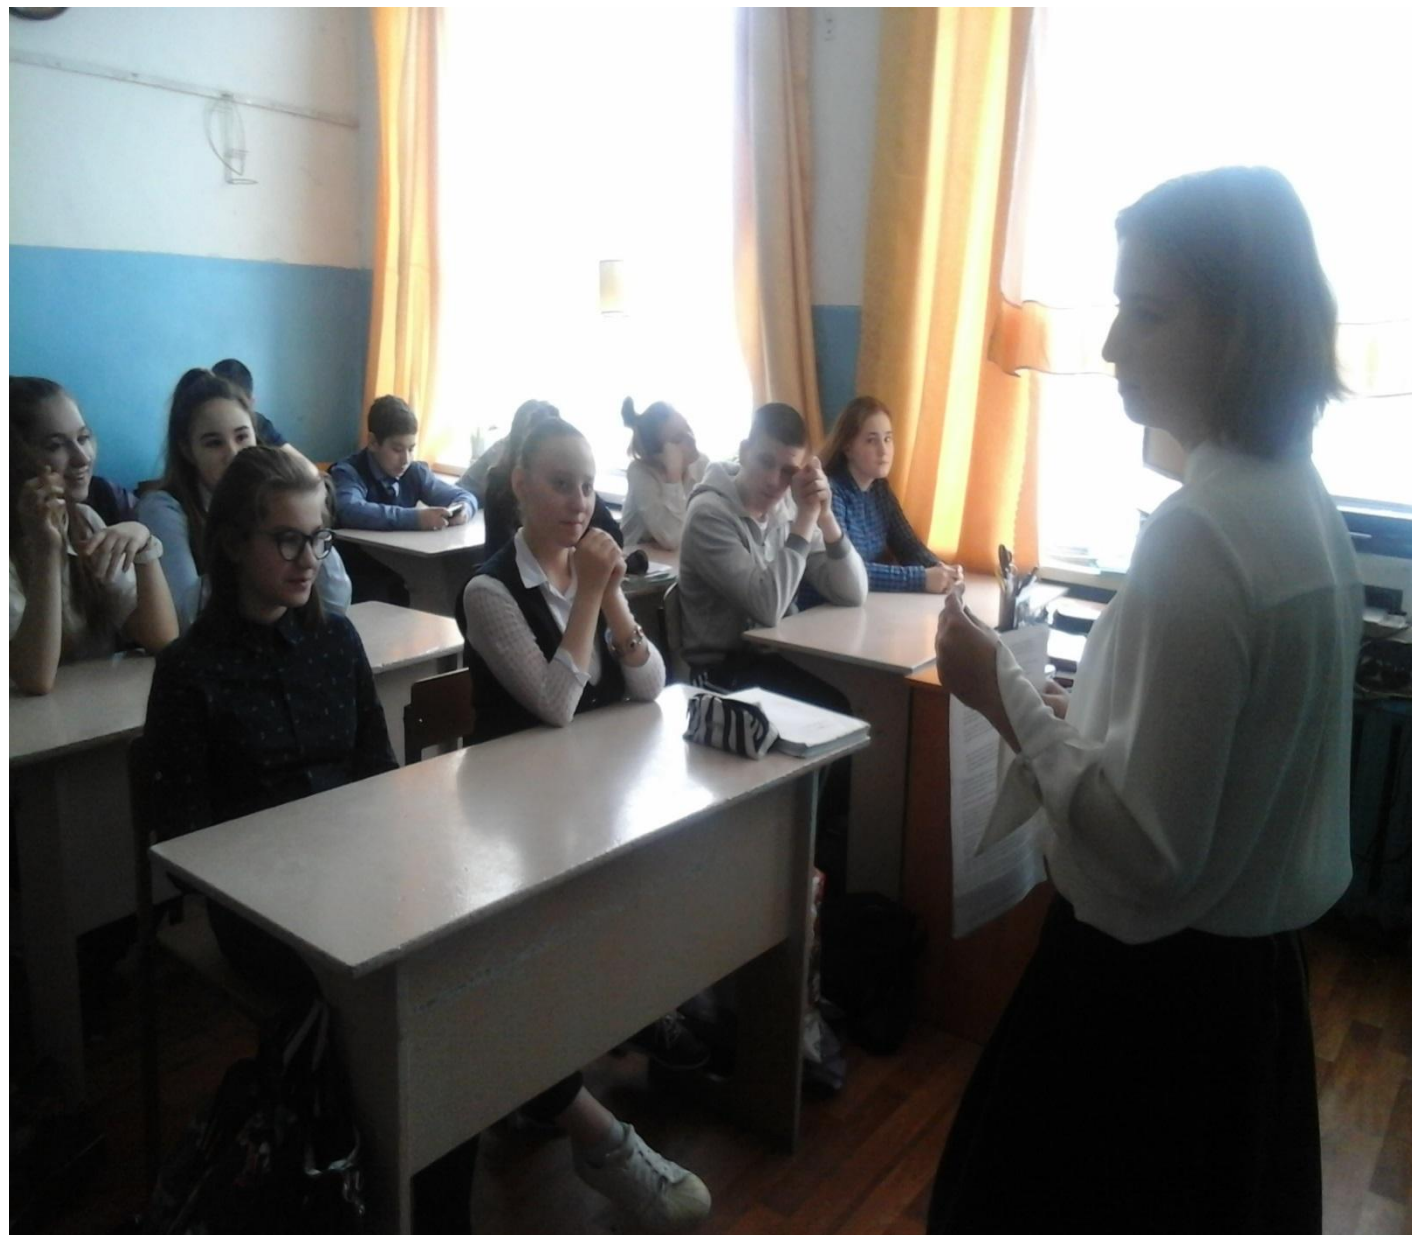

. The main activities of these clubs with primary school students are various educational activities: games, quizzes, personal hygiene talks, morning exercises, charity, prevention of antisocial phenomena, promotion of a healthy lifestyle, organizing children's leisure from the streets, participating as volunteers in activities on protection and rescue of the population, at ES

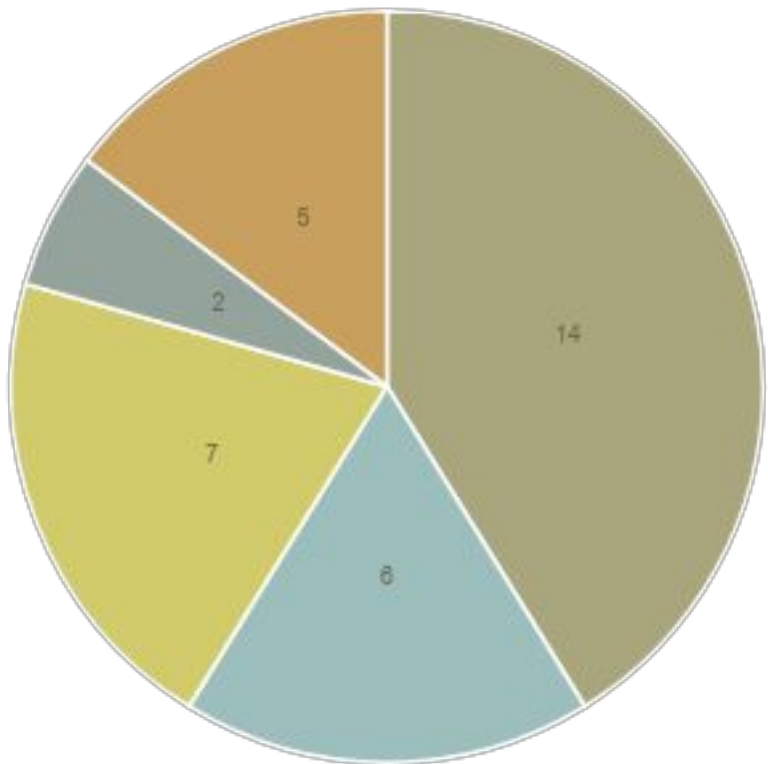

Recently, I held a thematic class hour with my teacher, where we told the guys about this activity.

.
Next, I conducted a very simple survey of my classmates, based on their associations after the story of volunteering. In the questionnaires there were very primitive questions, such as: Who do you think can be a volunteer? What kind of volunteer industry you are more attracted to?

.

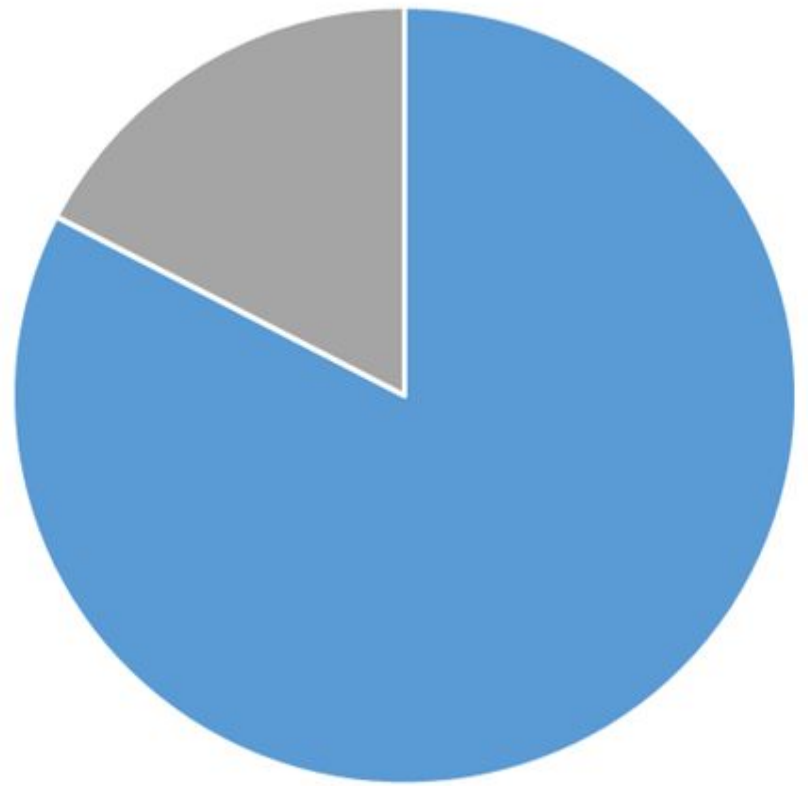

What does volunteering mean for you?

- To help people
- social activities in their spare time
- the good will of man
- communication with interesting people
- gaining new experience

Your attitude to volunteering

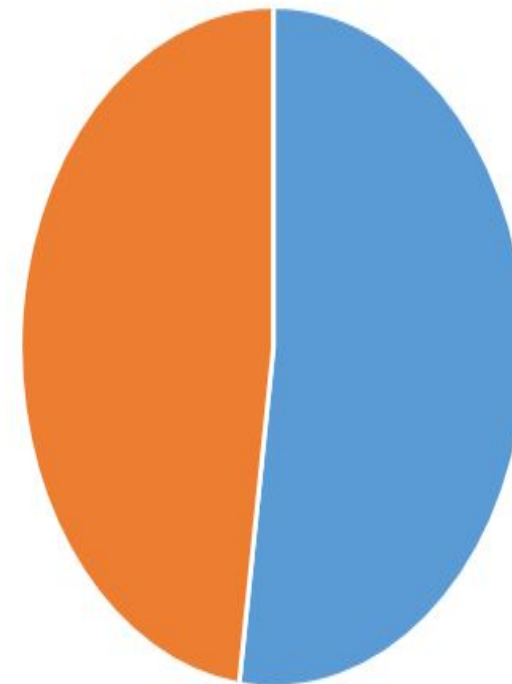

- positive answer
- it difficult to answer

who can be called a volunteer

- a man who does not care about the lives of others
- a person who participates periodically in volunteer work
- rich person engaged in charity
- a heroic person ready who ready to help others

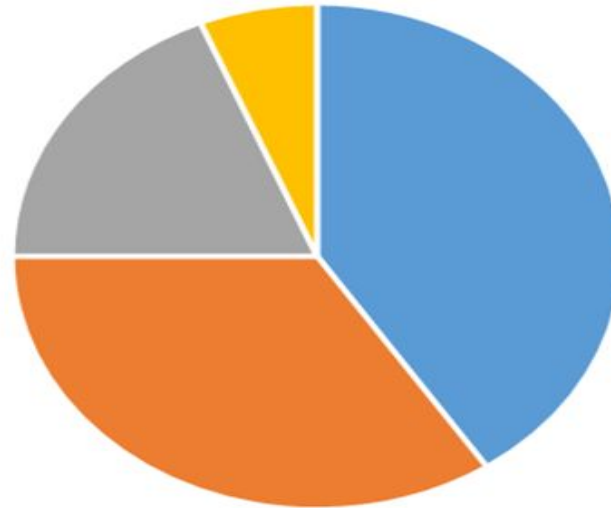

Do you have e
xperience of volunteering

■ yes ■ no

WHAT FORMS OF ACTIVITY WOULD YOU CHOOSE

The results of the survey showed that most of my classmates are ready to help people and volunteer in the environmental field.

- help one person
- help a group of people
- organization of charity events
- your option

select volunteer options

We decided that we will start several volunteer projects in our school, and we very much hope that with time our initiative will be picked up by other students of our school.

- help children
- environmental volunteering
- blood donation
- tourism and sport
- legal education of people
- I can not participate in volunteerism due to lack of time

The first project we provisionally called - "Green World". Clean air is an important component that ensures our health. Therefore, we decided to increase the number of room flowers in our school. To do this, we first examined all the flower pots, of course there were many plants that were not properly cared for. The second step was the cultivation of new shoots for planting. We also planted seedlings for the school infield.

The second project is actively promoted by our boys - they began to promote separate collection of garbage in the primary classes and organize the collection of old batteries themselves. This is a very necessary and useful thing. Nowadays, separate collection of garbage becomes very relevant. Such a simple thing as reasonable waste collection will help to save a lot of natural resources, will not allow pollution of rivers and lakes, and what is the most important it helps to save the air of our planet. Students of the junior classes take part in this action with great desire.

This is a charitable project "Good Caps", which is organized by the charity fund "Refuser" and is aimed at collecting lids from drinking bottles. LINGS is a Russian eco-charitable volunteer project with a dual purpose: to make cities cleaner and help children who need support. We will save nature, human health, and small lids will help to get a wheelchair for an orphan boy. The goal of the project is to attract as many not indifferent people to the collection of lids from drinking products for buying wheelchairs for children as we could.

ВОЛОНТЕРЫ В ПОМОЩЬ

Now a new generation of individuals is growing, with its own priorities in life and outlook, we understand that it is necessary to teach young people not to get hooked up on their egos, but to show them that everything in our life returns to us as a boomerang, bad and good deeds, fate has no privileges in this regard.

What about me and my emotions after the work has done, I would say with certainty that I`m feeling the grace and warmth deep inside myself, it warms me and gives motivation to continue my volunteer activity further, developing positive qualities and willpower that will help me in the future. In every corner of our planet, whether it is a rich metropolis or a tiny settlement with poor-quality communication links, everywhere people need help!

Soon I want to try to get a job as a volunteer in an orphanage. I want to work with children, help them develop and grow fully in favorable conditions. This experience can help in later life, besides, I like working with children. Maybe one of my friends will join me, I'll be just glad about it. If you help people, you not only make their life easier, the soul becomes better, you yourself begin to learn the good!

THANK YOU FOR
ATTENTION!
