

# The House of my Dream

Today  
we **read** the following text,  
**revise** the words  
and  
**speak** about the dream house

## My Dream House

My name's Mark. We all know that every living person needs a place to stay. And that place is your home. A home is a place filled with joy, love, laughter, happiness and sometimes sadness, too. So we all want to have a nice home.

Now let's dream a little. What is my dream house like? I can describe it in two words: big and comfortable. It is away from the noisy city centre, somewhere in the countryside. It's a detached house of course, not a small cottage. There's a small river nearby and a green lawn in front of it. From the outside the house is modern, with very big windows and balconies on each side. There are two stories in my house with an open air swimming pool at the top of the roof. Of course we have a garage and enough parking space.

# My Dream Room

Hello, I'm Angelika.

I'd like to tell you about **the room of my dream**.

It's large and comfortable. The walls are dark with smiles on them. There is a black sofa, a round table, a wardrobe, a red armchair with a huge white teddy bear, a bookcase, a TV and a computer in my room. There is a big bed and a white carpet on the floor. There is a nice clock on the wall. There are pretty posters above my bed.

I like **this** room because it's really fantastic.

# Hometask

- 1) Make a plan to describe your room
- 2) Be ready to tell the class about it.
