

**How to be saved from and
how to save our Environment**

**The problem of our lesson is the
global situation in ecology and
what can we do with it.**

**The slogan: No environment,
no society.**

The motto of our lesson is “It’s a question of discipline , when you’ve finished washing and dressing each morning, you must tend your planet... It’s very tedious work, but very easy.”

Antoine de Saint-Exupéry
The Little Prince

**Our precious planet is sunny,
friendly and reliable.**

What are the main ecological problems of today?

Air pollution

Fires

Trees are cut down

Water and land pollution
