*average* - **средний**

*mild* - **мягкий**

*continental* - **континентальный**

*dry* - **сухой**

*tropical* - **тропический**

*highlands* - **высокогорье**

*temperature* - **температура**

*polar* - **полярный**

*Mediterranean Sea* - **Средиземное море**

**Climate is the average weather conditions of a region over a long period of time. A climate map shows you the different climates in the world.**

**There are six main climate zones in the world:  
tropical, dry, mild, continental, polar,**

# Types of climate

## Tropical Climates

**Tropical areas are usually hot and wet all year. Some tropical areas may have a dry season.**

**Thick forests with millions of plants grow here because of the warm**

# Types of Climate

**True deserts are very dry and hot all year. They are usually hot during the day and very cold at night.**

**Only a few plants can live in desert climates.**

**Their roots are near the top of the soil to collect rainwater.**

**Dry  
climates**

# Types of Climate

Mild

# Continental Climates

DEFINITION OF THE MARINE WEST COAST

**sunlight. Winters are long. In some regions, there are large areas of grasslands.**

# Polar Climates

**Polar regions are very cold and dry.**

**Tundra regions have short cool summers. A few grasses and low bushes grow here. There are no trees. They cannot set up roots in the frozen soil.**

# Highland

**This climate has sunny, rainy winters with cool to warm summers. Some regions have hot, dry summers. Shrubs and short trees grow in this climate. Some of the trees are evergreens.**
