

About Me

Nizharadze Victoria

Let me introduce myself.
My name is Victoria Nizharadze.
I am 17 years old.

I was born in St. Petersburg and
lived here with my mother.
Antonina Vasilyevna.

My family is very big. In this regard, I have two houses, where I am always happy.

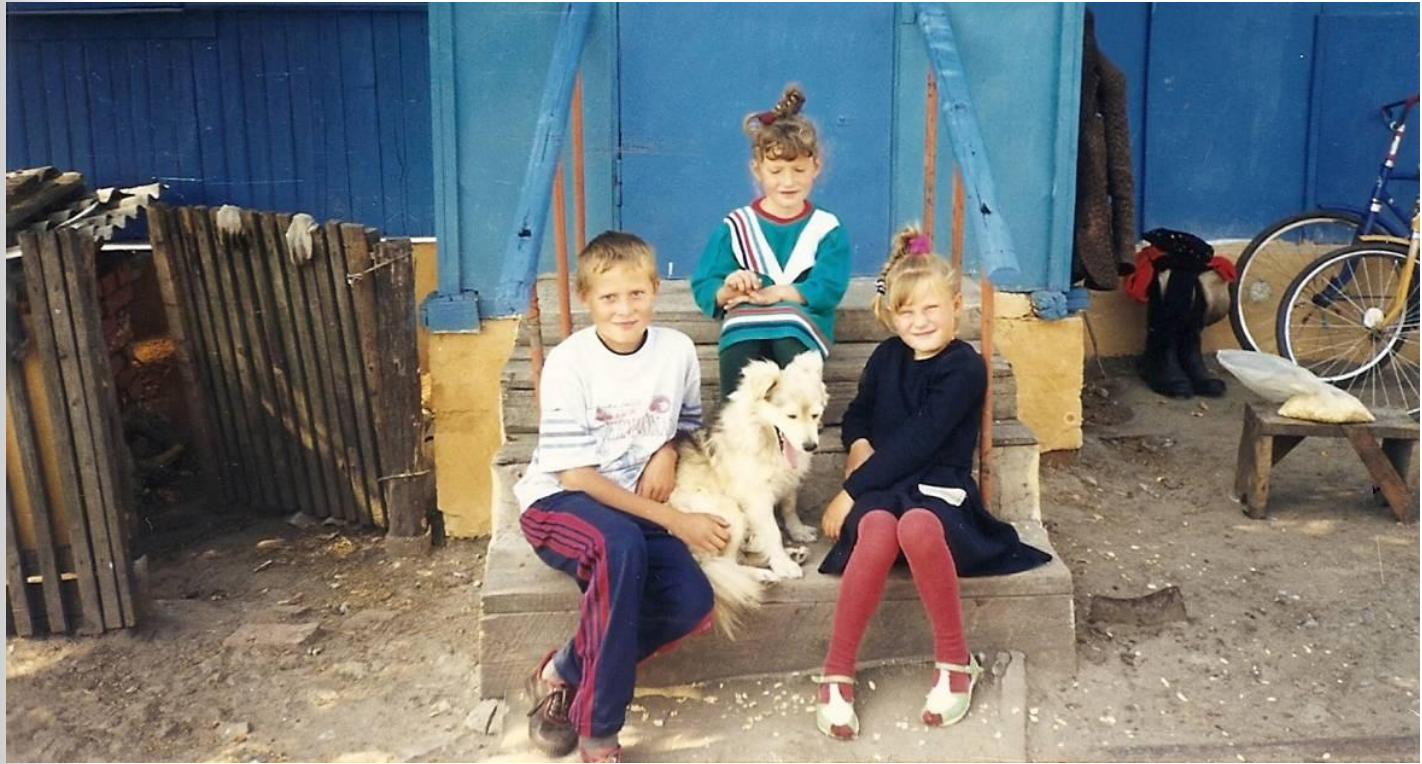

The first house is of course in St. Petersburg, the second - in Kursk, where I spent my childhood fun.

Little about the family.

The first house, Kursk:
In Kursk, I have lived most of the family. When I arrive there, I live with my beloved grandmother, sometimes with aunts and uncles, brother and sister. With my sister we are always together! And her I love very much!

A second home to St.
Petersburg.

In St. Petersburg, live only
grandmother, grandfather,
aunt, uncle and their
daughter.

They live in the suburbs ,so I
and my mother visited them
often.

I studied at two schools:

In elementary school № 615

And in the middle № 263

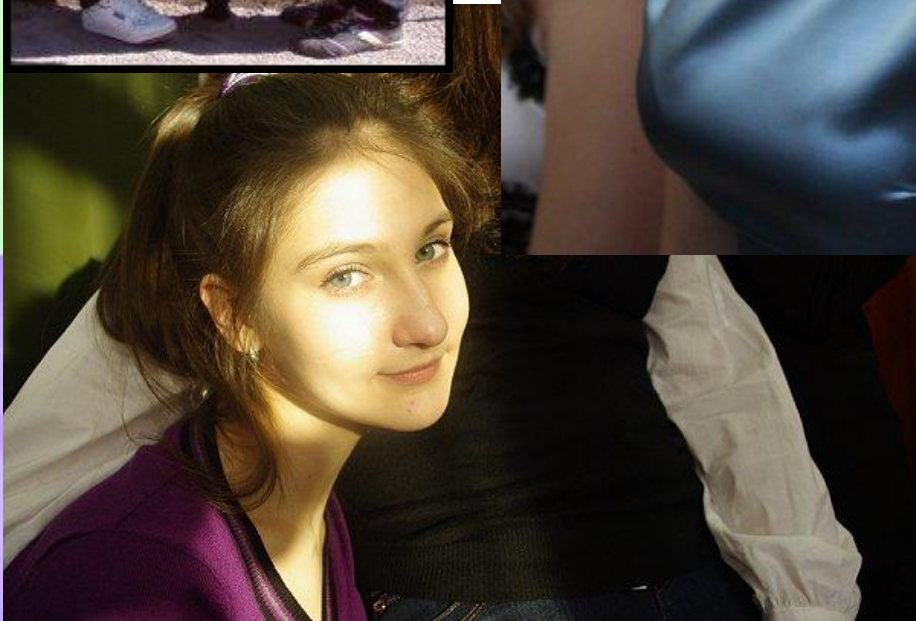

263, so we always call it!
This is the place I love and I
often go there.
Two main person in my life who
have come out of school 263:

The first woman is my form-master Oksana Borisovna, who never ceases to bring us to this day for that I love her.

The second woman is of course the first and only school friend Pilikina Victoria, with whom I have much in common and we are friends, almost five years, I am very proud and thankful!

In 263 I have been actively involved in school life. part of the school board, with which we organize and conduct celebrations. I am directly involved in the competitions and design school.

Совет школы № 263

In high school, I conducted sessions on technical subjects, which served as a further clue to the choice of university.

*Now I am a student
of
Herzen University.*

*And I can safely say
that with the team I
was lucky!*

*What will happen next
I do not know, but
I'm sure everything
will be fine !*
