

ARCHITECTURAL WONDERS OF THE WORLD

ARCHITECTURAL WONDERS OF THE WORLD

CHRIST THE REDEEMER

- Christ the Redeemer is a statue of Jesus Christ in Rio de Janeiro, Brazil. It is 39.6 metres tall, weighs 700 tons and stands on top of a mountain overlooking the city. A symbol of Christianity, the statue has become an icon of Rio and Brazil.

MACHU PICCHU

- Machu Picchu is an Inca city high in the Andes Mountains of Peru. The Spanish conquistadors destroyed other Inca cities, but never found Machu Picchu. It was only discovered in 1911.

THE GREAT WALL OF CHINA

- The Great Wall of China is the largest man-made structure in the world. It stretches across the mountains and deserts of China for thousands of kilometers and can be seen from space!

TAJ MAHAL

- The Taj Mahal at Agra is India's most famous building. It was built by Emperor Shah Jahan in 1630 in memory of his beloved wife Mumtaz Mahal. She died giving birth to their fourteenth child, and her last wish was to be buried in a tomb 'such as the world had never seen before'.

THE ROMAN COLOSSEUM

- The Roman Colosseum was built between 70 and 72 AD and was in use for 500 years before it was damaged by an earthquake. It still stands as one of the greatest buildings of ancient Rome.

THE CITY OF PETRA

- The city of Petra was hidden in the mountains of Jordan for thousands of years when a young Swiss explorer Johan Ludwig Burckhardt rediscovered it in 1812

CHICHEN ITZA

- The city had pyramid-shaped temples and palaces, large squares, markets, baths and an astronomical observatory. Although all the buildings of Chichen Itza are now a natural stone colour, most were probably painted - some a bright red - and decorated with carvings and murals.

THE EIFFEL TOWER

Location : Paris, France
Construction : 1887 – 1889
Height : Antenna
/ Spire 324 m
Roof: 300.65 m
Mass : 10 100 tons
