A satellite-style map of Australia, showing the continent's terrain in shades of brown, tan, and green, surrounded by the dark blue of the Pacific Ocean. The map is centered on the continent, with the surrounding ocean visible on all sides.

Australia is situated in the south-west of the Pacific Ocean. The area of this country has got 7,687,000 square kilometers. Australia is the largest island in the world and it is the smallest continent.

**Nearly 20 million people live in Australia.
The official language is English.**

The capital of the country is Canberra.

The climate

Australia's climate is dry and warm. Australia is situated in the southern hemisphere and that's why there is summer, when we have winter and there is winter, when we have summer. It is interesting to know that January is the hottest month in Australia.

The animals in Australia have a lot of

original,

koala

and they are

interesting, for example...

kangaroos

crocodile

lizard

Melbourn

A photograph of the Sydney Opera House at dusk, illuminated with green lights, with the text overlaid in a cursive font.

Formerly the head of the state is the Queen, but in fact Australia is independent, self-governing state. The Parliament of consists two Houses.

The End
