

AUTUMN

Autumn is one of the four seasons. It is the transition from Summer into Winter. The weather also begins to get colder & windy and many plants stop making food.

The weather starts to get cooler.

We start to wear long sleeved shirts, long pants, and sweaters.

Autumn is the time when trees shed their leaves. The leaves change from green to red, orange, yellow or brown before falling.

The leaves start to fall off of the trees. That is why autumn is also called the fall.

In Autumn, there is less sunlight because the days are shorter.

Animals and insects store up as much food as they can before winter comes.

What is special in each autumn month?

### September:

September means it's time again for going off to school.

The days are getting shorter and the nights are getting cool.

### October:

October leaves are lovely,  
They rustle when I run,  
Sometimes I make a heap  
And jump in them for fun.

### November:

Now the autumn days are gone  
Frost is sparkling on the lawn,  
Windows winking cheerful lights  
Warm the cold November nights.
