

MINISTRY OF FINANCE
OF UKRAINE
BUKOVYNA
STATE
FINANCE ACADEMY

Bukovyna State Finance Academy is rather young as an institution of higher education: it was founded on July 13, 2004.

It has a long history, because it has actually founded on the basis of a college of finance. The college was founded in 1944.

On the 19 th of March 1998 according to the law of Cabinet of Ministers of Ukraine Bukovynian State Institute of Finance and Economics was founded on the basis of the college.

A middle-aged man with grey hair, wearing a dark suit, light blue shirt, and patterned tie, stands on a wide stone staircase. He is leaning his right hand on the stone railing. Behind him is a large, ornate metal emblem mounted on a stone wall. The emblem features a circular design with intricate scrollwork and a central figure. The background shows a building with classical architectural elements, including arches and a balcony with a decorative iron railing.

*Then it became the Bukovynian State
Institute
of Finance and Economics, which has
been reorganized into the Academy.*

**And now near 15 years the
institution is headed by the
candidate of Economics,
professor, renowned of the
Educational system of Ukraine**

V. V. Priadko.

Nowadays the institution trains specialists of the IV level of accreditation majoring in finance.

The Academy has three buildings in the centre of the city.

An academy is advice to welcome new students, and does everything it is possible, that a level of education was high, and knowledge of students - perfect in that or other industry of economy.

In Academy more than 2000 students, 170 teachers, are counted and 10 doctors of sciences.

The classroom and laboratories are well – equipped.

An academy uses new technologies in the process of studies of students.

The students may use the information from local and global (Internet) computer networks.

An academy has a large library which fully provides students books. Also there is an electronic library which uses popularity among students, as it is instrumental in a rapid information retrieval.

From year to year a library is filled up new books, magazines, newspapers. It stimulates students to the studies, because there always are answers on a question.

In an academy students must possibility take part in groups, engaged in a game on musical instruments, to sing, to dance. An academy encourages students to cultural development.

The Academy has highly – qualified research potential. There is a students’ research society. The graduates from the Academy are ranked high at the labors market: about 95 % have found jobs in their specialization.

THE END...
