Many people continue careers of their parents or grandparents.

Usually a pupil's plans for the future change many times during the school years. There so many people who influence you in choosing your occupation.

Parents and friends play a very important role in your choice.

Teachers influence on pupils minds
is also great.

Occupation you want to devote your life to has to bring you satisfaction or at least good salary. But actually it should be something you can do and you really want to do.

When you leave school you understand that the time to choose your future profession has come. It's not easy task to make the right choice of a job.

As for me, I made my choice long ago. I want to become a teacher of the Ukrainian language and literature.

My choice of this occupation didn't come as a sudden flash. During all school years literature was my favourite subject. I've read a lot of books by Ukrainian and foreign writers. I understand that reading books helps people in self education and in solving different life problems.
