♥ London ♥

I've never been to London, but to visit the capital of Great Britain is dream of my life.

There are many interesting places to visit in London, such as WWT London Wetlands Centre, London Eye Ferris Wheel, London Dungeon, London Planetarium and many others.

Kew Gardens

The Royal Botanic Gardens, Kew, usually referred to as Kew Gardens, is 121 hectares of gardens and botanical glasshouses between Richmond and Kew in southwest London.

Come to London in the spring. In the spring, the city is getting warmer by gentle spring sun.

Spring - the perfect time to visit the many attractions of London.

You can admire the flowers at Kew Gardens (Kew Gardens), to observe the newly hatched ducklings in a London Centre of wildlife and aquatic lands (WWT London Wetlands Centre) or a stroll in one of the beautiful Royal Parks of London.

WWT London Wetlands Centre

The capital of Great Britain is a very popular city for tourists not only in his country and Europe as a whole, and in London there are many attractions, many of which are included in the UNESCO World Heritage List. Everyone is familiar with names such as Big Ben, Tower of London, Westminster, Buckingham Palace, Trafalgar Square etc.

Tower Bridge - a bridge with a combined mobile farm in London, England over the River Thames. That's close proximity to the Tower of London, gave the name of this bridge. Tower became a symbol of London as Big Ben or the Houses of Parliament of Great Britain.
