Jennifer was born on 15 of August, in 1990 in Louisville, the USA. In 14 years she resolved to become the actress, parents brought her to New York where agents highly appreciated her actor's skills. She graduated from school external for 2 years earlier to start acting in actively at film.

The background is a vibrant yellow with a soft, painterly texture. On the left side, there are decorative floral and vine motifs in a slightly darker shade of yellow, featuring leaves and swirling patterns. The overall aesthetic is bright and cheerful.

Jennifer — the girl, whose delightful sense of humour and a step, excellent actor's game and remarkable external data, refinement and an emotionality, appreciates and loves everyone who is familiar with her creativity.

Jenn – well put girl of average height with hair of wheaten color and blue eyes. It fantastically looks both in design clothes, and in daily.

Ms. Lawrence enough constitution though at teenage age her agents forced to grow thin that she could receive a desirable role. Now Jennifer is ready to kill any who will say the word "diet" near her. The young actress one of the few who doesn't put a lot of effort to play a certain role, and it is grateful for it to the talent given by nature. Jenn often appears on public, but in 7 years, says that *"despite the fact that, how many earns by the favourite business, it is difficult not to regret about it when the rack of paparazzi pursues you"*. Lawrence the kind and sympathetic person, it isn't ill star fever and on a scene (during interview) behaves simply and sincerely.

"Its counter — it to be shocking, a little near and simple-minded, and it is remarkable, the talent" is for this purpose necessary — Josh Hatcherson, her colleague according to the movie "Hungry Games" speaks.

The background is a vibrant yellow with intricate floral and vine patterns in a slightly darker shade of yellow. The patterns include swirling leaves and delicate vines, primarily concentrated on the left side and top of the page. The overall aesthetic is bright and decorative.

In free from work the actress draws time, knits sweaters, is engaged in surfing and plays a guitar. Also Ms. Lawrence says that in free time likes to spend time with friends and to look "Desperate Housewives".

About itself - to stay-at-home Jennifer speaks so:

"If I appear at a party, after eleven evenings I start thinking of the sofa. And that I pass a new series of reality show about Kardashian's family, for me it is a stress".

In one of Jenn's interview she told about the opinion on an actor's profession: *"Perhaps it will sound roughly, but it seems to me, an aktor- such nonsense. When me ask as I manage not to think no mall of oneself, I answer: "And than me to be proud? I after all don't rescue people from death". There are doctors who save lives, firefighters who enter into burning buildings. And I only play at cinema. It is silly"*.

I love Jennifer Lawrence as idol that it even being the popular actress, remains the ordinary person without any star whims. She is a very good man with excellent sense of humour and tender heart.

The background is a vibrant yellow with a textured, watercolor-like appearance. On the left side, there are intricate green and yellow floral and circular patterns. These include stylized leaves, swirling vines, and several concentric circles of varying sizes, some with solid centers and others with hollow centers. The overall aesthetic is bright and celebratory.

Thank you for a revision!
