Door Handle With Self-sterilization System

problem

Recently, many lives were lost around the world due to the new H1N1 influenza. Governments worldwide are emphasizing the importance of hand washing as a method of personal hygiene to prevent the spread of the new influenza. In fact, most diseases are spread through hand contact and we can prevent many diseases simply by washing our hands thoroughly. The new influenza is no exception, and hand washing is very important. However, hand washing is not a perfect solution. Firstly, many people know that it is important to wash their hands, but they are often lazy about it. Secondly, even thoroughly washed hands become contaminated with germs with time or if we need to use an object that is shared by many people.

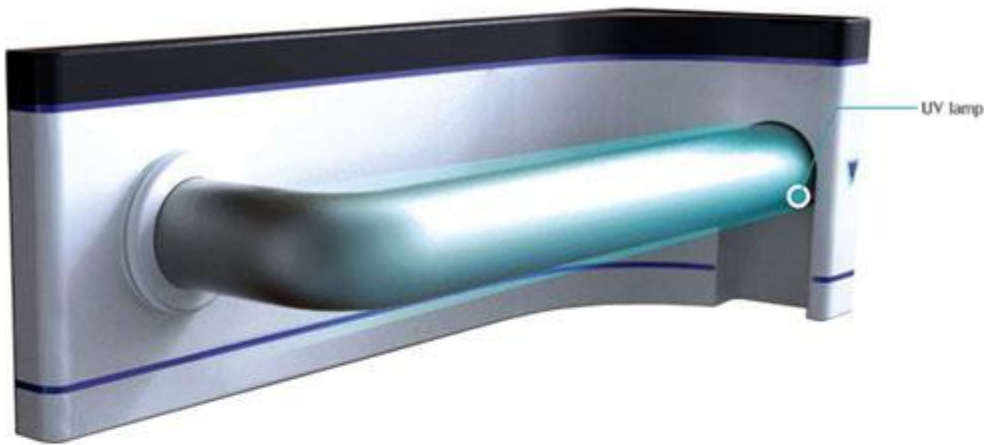

use

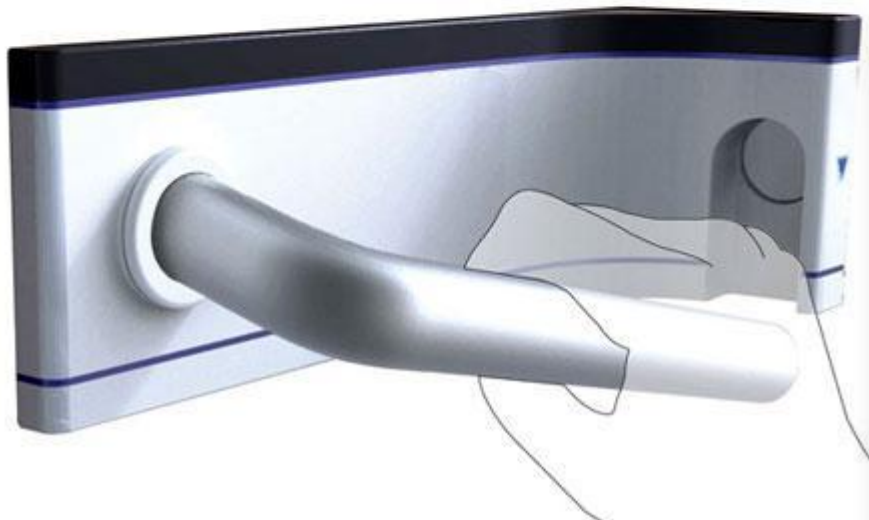

When the handle is not being used, the UV lamp continuously sterilizes it to maintain a clean condition.

The UV lamp turns off when the door handle is being used.

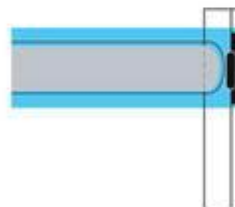

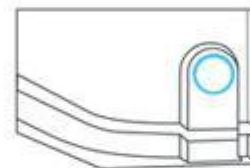

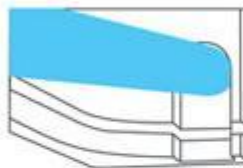

USE
turn off the UV light

How the UV Lamp Works

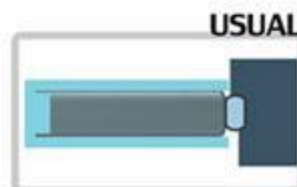

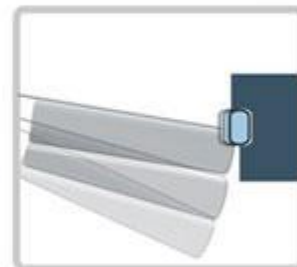

When the handle is used, the switch springs upwards and the lamp is turned off.

When the handle is not in use, the end of the door handle pushes down on the switch and keeps the UV lamp on.

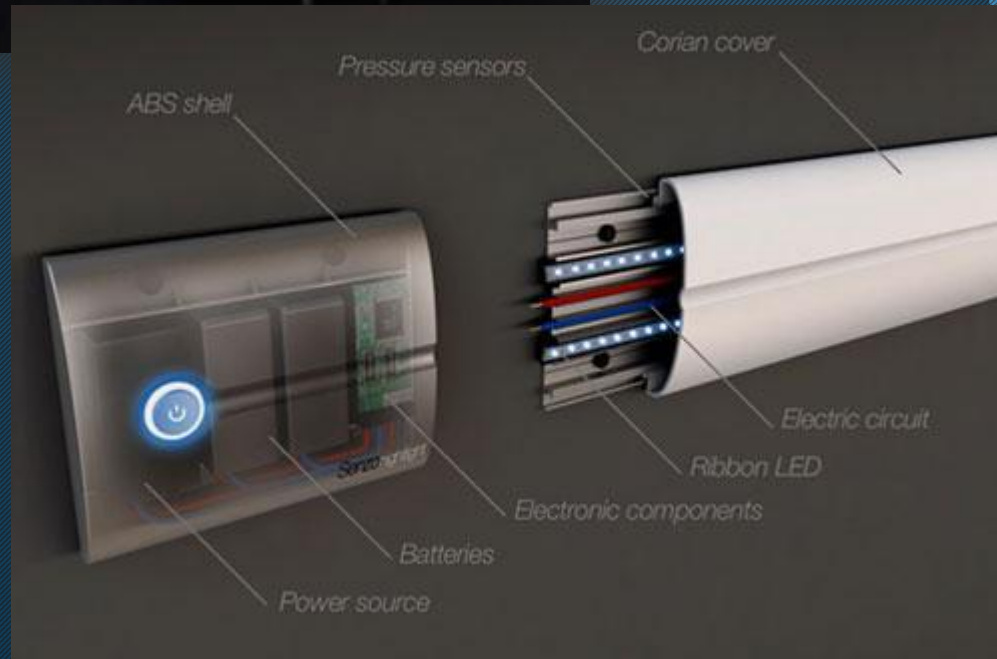

USE
Button is up.
turn off the UV light.

USUAL
Button is down.
turn on the UV light.

"Document Extractor" (Combination Monitor)

How to Save Your Time!
Monitor + Printer + Scanner
But...
It's not just Convergence!

Multi-Touch
Selection

THIS MONITOR IS JUST NOT A CONVERGENCE PRODUCT WHICH IS COMBINED OF PRINTER AND SCANNER. THIS MONITOR HAS THE SOLUTION FOR SAVING OUR PRECIOUS WORKING TIMES AND NATURAL RESOURCES. WHEN WE SURF THE WEB OR PRINT OUT PICTURES AND WORD FILES, WE HAVE TO PRINT THE WHOLE PAGES OR SOME PAGES BY RUNNING A IMAGE EDITING PROGRAM LIKE PHOTOSHOP. THIS PROCESS IS JUST INCONVENIENT AND WASTING OF TIME. BY USING THIS MONITOR, WE CAN SAVE WORKING TIMES AND NATURAL RESOURCES(INK OR TONER) . EVEN MORE, WE CAN MINIMIZE WORKING SPACES AND PRINT OUT THE MOST NECESSARY SECTIONS INTUITIVELY USING THIS MONITOR WHICH IS COMBINED OF PRINTER AND SCANNER.
