## What is the meaning of the word “POM” ?

*The term **POM** in Australia commonly denotes a person of British (usually of English heritage) origin. Many British people or those of British origin consider the expression offensive or racist when used by people not of British origin to describe English or British people, yet acceptable when used within that community*

*Another unofficial explanation is that P.O.M.E. stands for 'Prisoner of Mother England' or that P.O.H.M.E. stands for '**Prisoner of Her Majesty's Exile**'. It has also been suggested that POM stands for "product of Mother England".*

## What is it “Kuranda ” ?

*Kuranda is a town or a village in [Far North Queensland, Australia](#). It is surrounded by rainforest. **Kuranda** was first settled in 1885 and surveyed by Thomas Behan in 1888.*

*A wealth of Australia’s native animals, birds and butterflies can be closely observed in the magnificent habitats in and around the Village. The tropical forest environment is home to many unusual birds: binoculars and keen hearing will bring this world to life. If the gods are smiling, a glimpse of a friendly harmless fresh water crocodile, a playful platypus and a green tree snake will surely reward the observant visitor.*

*Attractions in the town include a regular market, consisting of a range of arts and crafts stalls as well as restaurants.*
