

# Death of Titanic

- The first descent of the Titanic on the water took place on 31st May 1911

- Titanic was designed with the latest comfort and luxury. On board were a gym, swimming pool, library, restaurants and luxury cabins.

- In one version of the tragic death of the Titanic occurred due to the use of the builders of low-quality rivets in some parts of the vessel.

September 1, 1985 an expedition led by Dr. Robert Ballard discovered the wreck of the Titanic. The remains of the ship were found 13 miles west of coordinates that "Titanic" aired in its signal "SOS."

- It is believed that this is the iceberg, which faced the Titanic.
