

Education in Britain

Schools

- Childhood the child is very short: in 4 years of age he had already started school time. In school, the child must be recorded with the quarter that follows him on his birthday. If a child goes to school after the allotted age , it may be a lot of confusion.

The education system

School education includes two modules: the primary - for children aged 4 to 11 years and the average - for children from 11 to 16 years. If parents want to teach your child at home, they need to get permission of the local Board of Education, which must be satisfied that the conditions of training are consistent with accepted standards.

The learning process

- In the 4 years of primary school, young students begin to study hard score, reading and writing, with the homework given 1 day a week. Classes at the elementary school are in a very soft, playful way, without any attempts to "adjust" all under one common level. Each child develops individually, in accordance with the level of its features.

Higher education

In the UK there are over 100 universities. The most famous universities are Cambridge University, Oxford University, Glasgow University.

University of Oxford

- Ranked second in the list of the oldest universities in the world's ,oldest English-speaking university in the world, as well as the first university in the UK.
