Memory training.

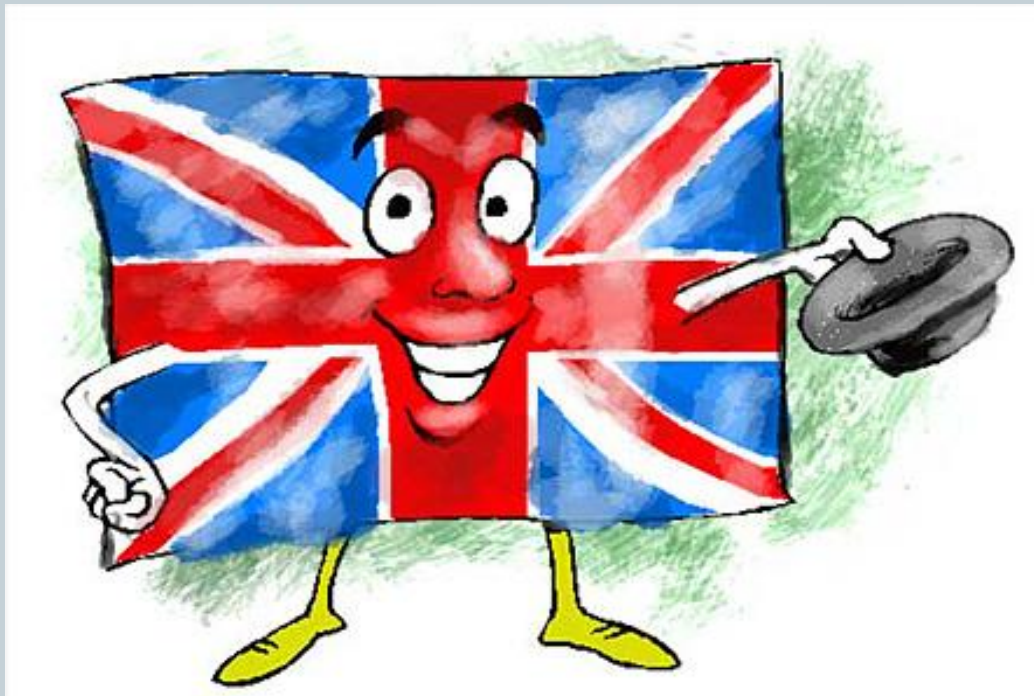

- The more you work with memory, the better it works. In the information age than ever useful to you you have a good memory, which can be trained in the study of foreign languages.

Listening to music.

- It's nice to understand what singing favorite foreign artist! And the songs become more interesting, while listening to them, understanding what they sung.

Good opportunity to earn.

- If you know English, you can help those in need in the translation, while earning money.

Increasing the "value" of the labor market.

- On what kind of job you would not have arranged most likely encounter a column "Foreign languages". In today's competitive job market, this graph can play in your favor if you know foreign languages. Now there are many international companies as well as companies that cooperate with other countries.
