

# Fashion in our lifes

By Vakhrameeva Sofya and Eremeeva Alisa

10 A

A lot of people study in our school. And each has its own unique style. But if we look closely, we will see that they are all dressed in some way for some style. Let's look at the most popular directions.

P.s. We will tell not only about school clothes, but also about how our students dress outside the school.

# Classical School Uniform

Top is white, bottom is black.  
It is classical school uniform.  
Boys usually dress jackets with  
plain shirt. Girls can wear strict  
office dresses in addition to  
school uniforms.

Masha:

I think the classical school uniform is  
very comfortable. With the current  
variety of shops and boutiques we can  
pick up something stylish for the school  
without problems.

# The Plahovskye

The Plahovskye are a new kind of subculture. Their typical attribute is a shirt with a brand logo on the whole back, hoods, brand-name expensive sneakers and the podvoroty. We can meet these interesting personalities on Lenin's Square. We can recognize them on a small bicycle, on which they perform tricks right on the monument of the leader of the proletariat.

# Hipsters

Hipsters dress specifically. They absolutely do not follow fashion. More precisely, they follow and do as they please, only not so. They wear loose clothes, preferably handmade, many cheap ornaments. An important attribute are checkered shirts. They want to create a kind of neglect. The truth is that they check through the hour in front of the mirror every morning, so that the appearance of untidiness was beautiful.

# Shodochye guys

Shodochye guys are very interesting. They dress absolutely differently. But mostly they wear old clothes that have been decorated with something, not wide pants or jeans and any comfortable shoes. An important attribute in their wardrobe is a sweater. Many sweaters. At least pieces 8.

# Cosplay

Cosplay is an interesting phenomenon when people change into a suit of their favorite hero or character and begin to act out in their image at the festival. It looks impressive and cool even from the outside. Cosplay can be cheap, it's called "character casting" and it can be expensive when the image is created in perfect accuracy. Знаки are one of the festivals of this type. It takes place in early June every year.

We want to note that not everyone dresses for some style. On the contrary, people usually come to the store and look for whatever they like, regardless of fashion and style.
