Geography of Canada

Geographic Landmarks

Canada has a very large and diverse range of geographic features. Canada is divided into 10 provinces and 2 territories. Canada stretches from the Pacific Ocean on the west, to the Atlantic Ocean on the east. Northern Canada reaches into the Arctic Circle, while southern Canada stretches below the northern points of the United States.

The east-central part of Canada are the provinces of Ontario and Quebec. These are major population and industrial areas. The Maritime provinces on the east coast rely very heavily on the Atlantic Ocean for their way of life.

Niagara Falls is one of Canada's best known tourist attractions. It is the largest falls in the world, measured in volume of water.
